(Homecoming Game - Rally Friday Night)	
Sat., Nov. 19, SDJC	There 8 p.m.

*Indicates rally Thursday preceding
Murdock Stadium
 Crenshaw and Redondo Beach Blvds.

BOWLING

With Darlene Cope

It was standing room only midnight Saturday evening at the Gable House Bowl for the second gala "Moonlight Bowl."

The illuminated colorful pins and darkness of the one side of the house entertained the bowlers and spectators, and was surely an exciting sight to see. The high series for the evening of 627 was bowled by Dale Quay.

By popular demand the "Moonlight Bowl" will continue every Saturday night from midnight to 3 a.m. August 13, 1960, is already a complete sell-out, but there are still some openings for August 20, 1960, and each Saturday night following. So do not miss out on the fun, please call FR 8-2265 now for reservations.

Want to join a new and different bowling league? Flo and George Lewis of 608 Prospect Ave., Hermosa Beach, are getting together a "Gay Nineties" bowling league to start soon at the Gable House for anyone 49 years and over. Flo, whose age is 64, has a bowling average of 137; George, who age is 68, has an average of 130. But don't let those averages stop you. If anyone desires additional information about joining this league call Mr. and Mrs. Lewis, FR 6-0047, or if no answer call the Gable House, FR 8-2265 and ask for Jerry Homel.

OUTDOORS WITH MEL

BY MEL SALTZMAN

The water is clearing and the fishing is picking up in local waters. The best fishing is now at Catalina, where the yellows are starting to hit hard. As I write this article the New Dina Lee just came back with 138 yellows. San Diego has just recorded the first 1000 day in yellows in almost two months. The water locally is still red but is clearing fast and should be good for the weekend. Paradise Cove has started its big Rock Cod run and the first trip to the big reef produced cow cod up to 26 pounds. The Albacore trips locally are taking about 30 hours round trip, but lots of big fish are being taken. Most of the fishermen are using No. 2 and No. 4 hooks and 25 to 30 pound mono line and are not using wire leaders as they did in the past.

In fresh water most of the local lakes are doing well if you can stand the heat. Isabella is producing well as shown by the picture. These were caught in less than an hour and a half with worms as bait. Who says that there are no catfish in Lake Isabella? Cachuma Lake has also rebounded after some slow weeks as the bass are hitting surface at dawn and again at dusk with bottom bouncing lures best during the day. Big Bear Lake is starting to go bad as it does at this time of the year and I have heard that they are going to Bluestone it to remove the excess plant life and control the parasites that attack the fish in warm water.

A good hint for all owners of gas burning lanterns and gas stoves. If you don't use the refined fuel that Coleman puts out make sure that the white gas you use is strained. This fuel usually has many small pieces of metal floating in it and these will jam the generators of your appliance. After several trips to the Coleman repair station I believe that their fuel is in the long run the cheapest to burn. The cost of parts make the addition cost of fuel seem small by comparison.

For more information and the best in sporting goods, stop in at Sportville U.S.A. or call Mel at FA 8-2173.

Recognize This Marine Madness? ... It's

Fred-Ken's Important Stock Reduction Sale!

AND WHAT A GIGANTIC SALE THIS IS GOING TO BE!
