### Grandview's Trade-Up Plan Proves Trail Blazer States Sales Director

Grandview Palos Verdes is on home development which does not view 1961 with any degree of gloom. The noted peninsula community reports that last weekend was the biggest of the young year, with over \$350,000 in sales.

"This overwhelming public acceptance of Grandview," said director of sales William C. Kuloy, "bears out a premise I have always held, that whether it be buyer's market, seller's market, boom or slow-down, there is always a demand for the right home, at the right price, in the right location."

**OCCUPANCY**  
Immediate occupancy, he said, is now available in some plans. Grandview homes are priced from \$25,800 and contain two bedrooms and den, three and four bedrooms and family room. All have two full baths, oversize double garages, lath and plaster walls and ceilings, oak parquet

hardwood floors, ash cabinetry, custom-styled fireplaces and generous usage of ceramic and imported mosaic tiling.

One fourth of last weekend's sales were through Grandview's trade-up plan, which brings the company's resources to bear in gaining the maximum possible price for the present home. Grandview's trade plan has been blazing a trail in the field for the Greater Los Angeles area, and is seen by experts as "the shape of things to come."

The furnished model homes are located on Hawthorne just off Silver Spur, near the new 27-acre shopping center, Drive Crenshaw to Silver and right on Hawthorne Blvd. and follow signs. Down payments start at \$1,500, and a few homes may be purchased by veterans on Va terms.
