Professionals See Impact of Little League Ball Training

Major league fame with its glitter, a good wage, plus years of little league, pony league and American Legion baseball have created a completely new impact on college baseball...

"It's more like a new labor area opening for the young job seeker," Freeman said, "with built-in training arranged in the community leagues and a future with good status."

Freeman offers some impressive facts to prove his contention. Not more than ten years ago, baseball try-outs at El Camino would number five to ten young men...

LOVE THE GAME

"These youngsters are real baseball players," Freeman said, "having all the desire and love for the game that is needed, but with yet another quality. They are able to see their college education and baseball in terms of a combined future."

Organized baseball has recognized the change also. With the depletion of minor league baseball, the professionals have come to see the college baseball training ground for future prospects.

al baseball has nearly faded away. Laws of professional baseball now stipulate that no college player may be signed during the academic school year.

Another interesting feature of the young baseball player that Freeman likes to call attention to is his respect for his education. "If a boy is signed professionally," Freeman said, "he will probably only leave school if a bonus is offered in the neighborhood of \$30,000. And, today, we find that nine out of ten of the big bonus players will be right back at their college during the off-season."

IMPORTANCE

"As it is," Freeman said, "with the pros recognizing the importance of the college training ground, with the lessening of 'bonus babies' and with the seriousness of the young baseball player himself, we are getting high calibre athletes playing for us."

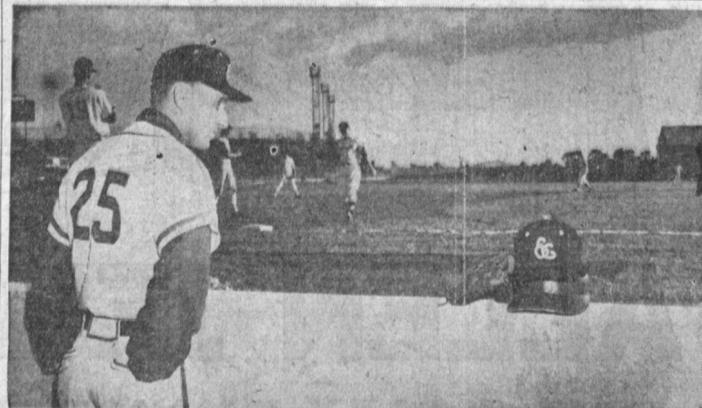

At least 20 of the tryouts for El Camino's team had achieved high school recognition as all-league players. And

NATIONAL SECURITY

Information which does not compromise the national security is public information, which the public is entitled to. The right of the electorate to the truth, to the facts of life, about its government, is a precious one and must be maintained.

OVERBLOUSE

The overblouse is seen increasingly this season, and with good reason. It lends itself beautifully to full skirts, is often part of a two-piece dress and is the perfect complement to a suit.

pirants. Freeman attributes larger college turn-outs to a series of recent over-all changes in the national pastime.

with this group there is another listing of all-city and all-CIF standouts. "We don't just play the game anymore," Freeman said, "we study and an exacting training ground, but it is also a great youth opportunity."
