Handsome Fashions Lined Up for Smart Men

Come spring and the living is free and easy—and colorful. Put a man outdoors in spring, and what does he wear? A casual jacket that's light, weatherproof and leather. Soft suede, smooth and

lightly grained leathers have taken over in men's casual fashion this season. Masculine, yet handsome and bright as the new slacks and sport shirts—leather coats, jackets and shirts are high in style,

versatile and easy on the budget. The tapered silhouette marks spring leather sportswear. The sports car enthusiast will find the broad, comfortable shoulder of his smooth or grained leather car coat built for free wheeling. In creamy tan, rich stag or jet black, a trim leather car coat always looks smart.

One of the newest car coats of smooth, soil resistant leather has a yoke-like effect across the chest which conceals the opening of two neatly set breast pockets—one for cigarettes, the other for a wallet. Convenient pockets on the sleeves hold small change and a pen to jot down important phone numbers. Self-leather buttons and a collar tab close the coat against breezes.

For any activity—there are few garments as mobile and unhampering as a leather-and-knit jacket. In light knits

combined with smooth, grained or suede leather, these jackets are seen in white, taupe and natural deerskin colors that highlight tweed, worsted and cheviot slacks with knit insets under arms and on cuffs and waistbands to match or contrast.

Suede you love to touch—is found in everything from a casual three-button sack jacket appropriate for town or country wear to Bermuda shorts for resort wear.

Suede coats, vests or jackets are ideal for spring's changeable weather; they repel water stains and give smart lightweight comfort in the mildest weather.

PROGRESS
The progress of the future is linked to freedom of thought and freedom of speech. Consequently, those who seek the truth should vigorously oppose any effort to curb them.

RAILROADS

The railroads may have to discontinue a few of their runs for lack of patronage but as the Association of American Railroads said, "American railroads continue to serve 50,000 communities over 218,000 miles of railway, carrying almost as much freight as all other forms of transportation combined."

JUVENILE DELINQUENCY

Dr. Harry A. Snyder writes in a recent Saturday Evening Post on the problem of juvenile delinquency as follows: "If there is any remedy for disrespect for the law, dearth of moral values and absence of religious guidance, it appears that the family circle must assume the primary responsibility."

OVERHAUL

In Washington, almost everybody agrees, the investigators need investigating, the monitors need monitoring, and the rulemakers need new sets of rules for themselves. In short, an overhaul is called for in the Federal regulatory agencies
