Power Sewing Class Has No Expense, Says Instructor

"Nothing is needed but a pair of scissors!" That's right, those taking the power sewing class at El Camino College have no expense except the purchase of a pair of scissors, according to Mrs. Marisa Robles, instructor.

"Many women suddenly find it necessary to support their family. This class is especially designed for them. Power sewing trains women for factory work, it employs the assembly line technique," Mrs. Robles said.

SPECIALIZED

Those enrolled in the class have numerous machines for their use. The specialized equipment includes a button sewing and button hole machine, double needle, overlock, and regular single needle machines. A new union special machine and an elastic setting machine have recently been added to the line of equipment. The class also has a steam press.

"Electric straight and round knives are used to cut out a minimum of one hundred garments for each class project," remarked Mrs. Robles.

Liberty Adds New Service Department

With the recent acquisition of Andy Anderson, Liberty Appliances, 3445 Torrance Blvd., has installed a complete service department, according to owner Tom DeLoyd.

"Anderson brings with him some fifteen years of experience," DeLoyd said. "We can now service the many appliances we sell with an expanded facility that includes servicing automatic washers, dryers, refrigerators, and gas and electric ranges," he stated further.

Liberty will give free estimates on brands that include Maytag, Frigidaire, Norge, G.E., Kenmore, Whirlpool, Westinghouse, Philco-Bendix and many others.
