

**CONSTANT RESEARCH**

Ceramic tile presents an ever changing choice of design, size, color and effects because of the constant research engaged in by today's manufacturers. These new files in the hands of progressive builders, contractors and mechanics keep this age-old product in a competitive price structure for the present market.

**WELL SUITED**

In addition to its many other features, ceramic tile is particularly well suited for baths and pools because it is impervious to body oils and chemical additives in the water, the Ceramic Tile Institute points out.

nical Training Center, Memphis, Tenn.

During the two-week orientation course students are instructed in naval aviation history, flight theory, organiza-

tion nomenclature, resignations, safety precautions, and survival training.

Students are now assigned to a basic technical school at the center.

**CITRUS**

Californians who would preserve their state's heritage by planting citrus in the garden will find April an ideal month to do it. First, it's the beginning of the growing season; and, secondly, they transplant best now.
