

FOR RESEARCH—Dr. Fred G. Smith Jr., 1219 Cranbrook, Torrance, holds \$1450 research grant for study of cause and cure of kidney diseases, given to him by Herbert J. Young, official of National Kidney Disease Foundation of Southern California. Dr. Smith is on the teaching staff of Harbor General Hospital.

Torrance Doctor Awarded Research Grant

A Torrance resident has been awarded a \$1450 research grant by the National Kidney Disease Foundation. Dr. Fred G. Smith Jr., 1219 Cranbrook, is the recipient of the grant by the foundation's Southern California chapter. Dr. Smith, who is a member of the teaching staff at Harbor General Hospital and also affiliated with the UCLA Department of Pediatrics, will use the funds to study renal functions of premature and full-term infants at Harbor General Hospital.

He shared a total grant of \$11,250 with six Southland scientists who will seek the cause and cure of kidney diseases, according to Aaron Schwab, local chapter president. Kidney diseases today rank as the nation's fourth largest killer, claiming more than 30,000 lives annually with more than 300 fatalities in California alone.

The foundation's local headquarters are at 1227 1/2 S. La Brea Ave., Los Angeles. The organization supports a program of community service and research.

SECURE INVESTMENT

Real estate records show that a properly plastered house always has a greater resale value than an unplastered house and earns a higher appraisal from lending institutions, according to the Southern California Plastering Institute.
