

The Communist Threat

HOW SHOULD YOU MEET IT...

...and Guard Against It...

Memorial Day ... May 30th

"In Peace and Honor Rest You Here...."

Are You a Communist dupe?

How about Mr. and Mrs. Brown next door . . . or across the street? Or your employer . . . or perhaps you teachers, fellow-workers, city or county officials?

Can you recognize Communism or its carriers at work? If so, what can you do about it?

Numerous charges have been bandied about lately tending to confuse the average layman. Therefore it is advisable for all Americans to seek rational answers to the above questions.

According to FBI Director J. Edgar Hoover; you can do a lot in combating the menace of communism. Hoover, in his recent book, "Masters of Deceit," states that Americans must first know the answers to five principal false claims of communism to learn how to detect deceptive communist fronts. They are:

- 1—COMMUNISTS ARE NOT LIBERALS.
"Communism is the very opposite of liberalism," Hoover explains. "They realize that true liberalism is a bitter enemy—a fighter for the things that communism opposes."
- 2—COMMUNISTS ARE NOT PROGRESSIVES.
"The exact opposite is true," Hoover said. "Communists are barbarians in modern dress, using both club and blood purge . . . they have increased the tyranny of the state. . . . This is not progress but a turning backward, throwing away the fruits of history, religion and free government."
- 3—COMMUNISTS ARE NOT SOCIAL REFORMERS.
". . . they detest democratic reforms," the FBI Director said. "These changes, they know, will make free government stronger, hence less likely to be overthrown by revolution. Their espousal of reforms (higher wages, better working conditions, elimination of racial discrimination) is strictly a revolutionary tactic."
- 4—THE COMMUNISTS DO NOT BELIEVE IN DEMOCRACY.
"To the communists, democracy does not mean free speech, free elections or the right of minorities to exist," Hoover said. "Communism means the domination of the communist state, the complete supremacy of the party."
