

Local Minister Attends Assembly

L. E. Olliff, resident minister for the Torrance congregation of Jehovah's witnesses, is making preparations to attend the three-day semi-annual Circuit Assembly of Jehovah's witnesses of California Circuit No. 16 at Washington High School auditorium — 198th and Denker, in Los Angeles.

Born in 1908, Mr. Olliff is a long-time resident of this community and has been active in the ministry since 1934. He is quite well known too inside the Union Oil refinery, since he has been employed there for the past nine years. Mr. Olliff is a

painter, and like the Apostle Paul, who was an expert tent maker and worked at his trade from time to time as a means of sustaining himself, L. E. Olliff is also a skilled painter and by this means he earns a livelihood for himself and family.

Mrs. Olliff is also making plans to attend not only the coming Circuit assembly of Jehovah's witnesses at Washington High, but included in her plans is a trip to Europe this summer where she will attend large assemblies of Jehovah's witnesses in England, France and Germany. This is Mrs. Olliff's first trip abroad

Small Business Leaflet Ready For Distribution

Donald McLarnan, Regional Director of the Small Business Administration for this area, announced this week that copies of a revised leaflet explaining the broadened coverage of the Agency's limited loan participation plan are available on request at the local SBA office, located at 312 West Fifth Street, Los Angeles 13, California.

The revised leaflet points out that SBA's share in one of these loans may now be as much as \$25,000 or 75 per cent of the total amount of the loan, whichever is the share was limited to \$15,000.

These loans are made entirely through and serviced by banks, with the bank taking at least 25 per cent as its share in the loan. Maximum maturity of these loans is 5 years, with a monthly repayment schedule, including principal and interest.

The maximum interest rate on SBA's share of these loans is 5 1/2 per cent, except in areas classified by the U.S. Department of Labor as having a substantial labor surplus. In these distress areas, the SBA interest rate is 4 per cent.
