### Bridge Lessons Offered at "Y"

Is it better to go down two sides, vulnerable or is it wiser to let the opponents make a game non-vulnerable? This is one of the questions you will be able to answer after completing the new ten week course being offered by the Torrance YWCA, 2320 Carson St., Torrance.

This new course will start Sept. 13 at 8 p.m. It consists of one hour of supervised play and one hour of lecture. Printed material on each evening's lecture will be available.

Bob Christie, the director of the Torrance, Palos Verdes, Rolling Hills and many other Bridge Clubs, will be the instructor for the course.

In designing the course it was made particularly easy for those who have never played bridge before as well as higher instruction for those who have played some bridge. Attendance will definitely be limited so call FA 2-2255 for reservations.
