

Bank of America Tells Of Stock Dividend, Price

A pre-season Christmas package was opened Oct. 17 for Bank of America's more than 200,000 shareholders by the Board of Directors at its regular monthly meeting in San Francisco.

A five per cent stock dividend plus rights to buy an additional 1,600,000 shares of common stock at a preferred price will be submitted for approval to shareholders at a special meeting Nov. 21 at the bank's head office in San Francisco.

The stock dividend is in addition to the regular quarterly dividend of 50 cents per share, declared today and payable Nov. 30 to holders of record Nov. 3.

GROWTH RECORD
"The continuing long-term growth record of the bank and the rising California, national and worldwide economy prompted the Board's action," President S. Clark Beise said.

"In the five years since our last capital increase the bank's deposits have gone up \$2 billion, loans are \$1.5 billion higher and the number of California branches

has expanded from 579 to 728.

"With an outlook for strong, sustained credit demand, new services stemming from electronic data processing systems and the opening of new branches to serve California's growing population the increase in the bank's capital structure will provide a firm basis for full and profitable progress," Beise said.

MEETING ACTION
Affirmative action by shareholders at the Nov. 21 meeting will be followed by:

Payment of the five per cent stock dividend of 1,280,000 shares on or about Dec. 8, to shareholders of record Nov. 3, at the rate of one full share for each 20 owned; Issuance of rights to subscribe for the new stock, on the basis of one share for each 16 owned, to shareholders of record on a date and at a price, under the market, to be set by the board;

An increase in the bank's common stock from 25,600,000 shares to 28,480,000 shares, and an increase in the bank's capital from \$160

Hahn Likes Monorail Downtown

In a letter to C. M. Gilliss, executive director of the Metropolitan Transit Authority, Supervisor Kenneth Hahn this week strongly urged the Metropolitan Transit Authority to:

1. Construct a pilot monorail line from the Los Angeles International Airport to the downtown civic center area along the Harbor Freeway.

2. Build a monorail system to circle International Airport to provide adequate public transportation within the huge Airport area.

3. Build additional monorail lines along existing freeways in Los Angeles County and plan for construction of monorail lines along future freeways.

Supervisor Hahn pointed out that the need for an effective efficient mass rapid transit system increases each day — yet each day of delay in developing rapid

transit reduces the possibility of such a system ever being built or ever being successful.
