

SCOUT SABBATH — Rabbi Henri E. Front presents the "Ner Tamid" (Eternal Light) award to Gary Emmet Johnson, first Jewish Boy Scout in the South Bay-Peninsula area to receive this honor. Presentation will take

place during the Sabbath services at Temple Menorah, 1101 Camino Real, Redondo Beach, on Feb. 9. A reception will be presented to the congregation by Johnson's parents.

Gary Johnson Receives Award On Boy Scout Sabbath at Temple

The first Jewish Boy Scout in the South Bay-Peninsula area to receive the "Ner Tamid" (Eternal Light) award is Gary Emmet Johnson, son of Mr. and Mrs. Jack Johnson. This award will be given at the Sabbath Services of Temple Menorah, 1101 Camino Real, Redondo Beach on Friday night Feb. 9. This night has officially been labeled Boy Scout Sabbath in honor of the anniversary of the founding of the Scout movement in America.

During the service Johnson will read a prayer of dedication in honor of his receiving this medal. Mr. Seymour Uberman, past president of the Brotherhood, and an adult leader of scouting in the city of Torrance, will also read a prayer written especially for Boy Scout Sabbath.

LEADER

Rabbi Henri E. Front, spiritual leader of Temple Menorah will preach on the subject "A Reference to Reverence." Cantor Harry Newman will chant the service and the Temple Menorah Choir is under the direction of organist Fay Newman.

An Oneg Shabbat (reception) will be presented to the congregation by the Johnsons in honor of their son.

The Sabbath candles will be lighted by Mrs. Burt Lynn of Torrance, mother of Brian Lynn, 13-year old student in Temple Menorah's Religious Schools, who will become Bar Mitzvah on Saturday morning, Feb. 10 at 10:30. Lynn will chant the Kiddush sanctification symbolic of the joy of living. Temple Menorah serves persons of the Jewish faith in Torrance, Redondo Beach, Manhattan Beach, Hermosa Beach, Rolling Hills, Palos Verdes, and outlying communities.

Psi Delta Sigma Sponsors Gala Grand Opening

The grand opening of the new Pen & Quill Hotel will be sponsored by the Alpha Chi Chapter of the Psi Delta Sigma National Sorority, which will present a fundraising champagne dinner-dance in the luxurious hotel in Manhattan Beach on March 3.

All proceeds will be donated to the Spastic Children's Foundation of Los Angeles. Mrs. Carl F. Herrmann of Torrance, national vice president of Psi Delta Sigma, is chairman of the gala event, which will be held in the "Manhattan Room."

INVITATION

Invitations to the dinner-dance are in the mail and Mrs. Janet Roberts Barlos of Manhattan Beach, who heads the reservations committee, anticipates an attendance of 500 persons. Los Angeles fund-raising efforts in the past have been through fashion show luncheons. But the opening party for the Pen & Quill Hotel will be the social welfare organization's most significant undertaking.

Mrs. John Peters, president of the executive board of the Spastic Children's Foundation, will be guest of honor at the dinner-dance. She will share the table of honor with Mrs. Chester L. Reed, national president of the sorority, and Bob Reuben, president of the Pen & Quill Hotel.

Psi Delta Sigma, a national organization since 1921, has chapters in three states: California, Illinois and Wisconsin.

LITTLE SCANDALS

Columnist George Sokolsky writes: "Considering the serious problems that face the President and the secretary of state, neither should be burdened with the little scandals that arise out of the maneuvers of lower officials to manipulate policy by day by day action. It is natural for insecure men to seek power and to grow upon it, but the country ought not to be burdened by such trivialities which grow into nuisances. The only way to safeguard the United States from such situations is to form policy at the very top and to insist that all secondary officials conform to major decisions; that those in secondary offices who are by doctrine or emotions incapable of conforming to top decisions be summarily dismissed..."

ACT OF VIOLENCE

An abnormal brain pattern has been found among a significant number of adolescents who commit murder and other acts of violence, according to a psychiatrist writing in the Archives of General Psychiatry, an American Medical Association publication. While the exact role of this organic factor has not been determined, he says, the phenomena "is linked far more than by chance to the occurrence of aggression and violence by children and adolescents."

Gem and Mineral Society Shown Rare Phenomenon

The Palos Verdes Gem and Mineral Society held its monthly meeting yesterday at Retail Clerks Hall, 25949 Belleporte Ave., Harbor City.

Guest speaker was Mr. Carl Wood, a member of the Los Angeles Lapidary Society, who presented an outstanding program entitled "Growing Crystals Under Polarized Light." Until recently, this phenomenon could be observed only under a microscope. Mr. Wood developed his process and his own equipment so that he could share this experience with an audience.

Safety Program Presented at PTA Meeting

"Starting the New Year Safely" was the topic of a recent PTA meeting at 223rd Street School. Two phases of this topic, fire and survival, were presented under the guidance of President Mrs. Ralph Robertson.

Diane Young, president of the student body, informed the parents of the drills executed at school in advent of disaster.

A panel planned by Mrs. Hampton Carroll and Mrs. Robert Dossey discussed individual and family survival.

Guest speaker Edward Day of the Los Angeles county fire department told of precautions for fire and showed a film relating to that subject.

FEDERAL SUBSIDIES

Assistant Vice President Douthat of the National Association of Manufacturers lists some of the highly controversial issues that the new Congress must consider. These include federal subsidies for schools; health benefits to the aged under the Social Security System, to be financed by higher Social Security taxes; taxation of income earned abroad even though it is not brought into this country, and the creation of a new cabinet Department of Urban Affairs and Housing, to deal with problems hitherto regarded as local.

CLOSET VENTILATION
A practical solution to the problem of closet ventilation is the louver door. Louver doors maintain good air circulation that prevents mustiness and possible odors. In addition, they add to the distinctiveness and beauty of closet exteriors, in bedrooms, hallways, or bathrooms.
