Dubuffet Art Exhibit July 11

Los Angeles, New York and Chicago are the only American cities to see the exhibition of works by Jean Dubuffet, possibly the most important French artist to emerge since World War II, opening at the Los Angeles County Museum on July 11. An admission fee (adults 50 cents, children 25 cents) show, it will continue through August 12.

The first major Dubuffet retrospective to be shown in American Museums, the exhibition comprises more than 200 works selected from Dubuffet's prodigious output since his first exhibition at the age of 43 in Paris in 1944. Organized by the Museum of Modern Art, New York, it comes to Los Angeles from the Art Institute of Chicago, where it is currently on view. To be seen will be paintings, assemblages, drawings and sculpture assembled from collections in the United States, France, England, Switzerland, Italy, Belgium and Canada.

Born in Le Havre in 1901, Dubuffet went to Paris at the age of 17 to paint and study. He renounced art in his early 20's, started a small wholesale wine business in 1930, only to abandon it a few years later to resume painting for a while, returning to the wine business in 1937. In 1942, he took up painting for the third time and in 1944 had his first one-man show in Paris. His second exhibition there in 1946 was a scandal among the critics, a success among collectors, who bought everything. The same year he permanently severed his connection with the wine business.

New Synagogues

About 700 synagogues are now under construction in Israel, most of them in new immigrant settlements and towns, it has been announced by the Israel Office of Information in New York. There are today about 3,000 synagogues in Israel, as well as 120 mosques and 200 churches.

Estainers New

A new family of extra-thin extra-strong plastic containers called "Estainers" has been developed by B. F. Goodrich Aerospace and Defense Products to replace metal tanks for an unlimited number of uses in industry. The lightweight collapsible bags are made of a rubbery polyurethane film.
