Illustrated, the A.R.A. CHAIRMAN

YOU KNOW WHEN A CAR IS AIR CONDITIONED BY A.R.A.

Get into a closed car that has been parked in the sun on a hot day. If there is an A.R.A. unit under the dash or in the trunk, cool air begins filling the interior as soon as you turn the unit on. INSTANT COOLING is only one of the advantages you can count on with an A.R.A. unit. QUIET, TROUBLE-FREE OPERATION is another. For a car full of cool air, and cooling performance you can depend on when you need it — you can't do better than an A.R.A.
