IMPORTANT
Two of the most important framing components in any home are the small timbers and dimension lumber which support the roof, the actual frame of the home itself, and the 2x12 lumber which serves as the floor joists. If these elements are made of selected Douglas fir or west coast hemlock the home is well framed and can last for a century or more.

"There's still time for everyone to register for the giant anniversary celebration prize contest," said Don Fordiani, manager of Magic Chef in the Del Amo Shopping Center, in announcing that the market anniversary celebration will continue. In addition to special low prices on everything in the huge food market, Magic Chef will give away free prizes worth hundreds of dollars. "Anyone may win," said the Magic Chef manager. "We're giving away a fabulous Zenith 17 inch portable television set and wonderful, useful, Uropa Refrigerator Bar Combination." "Yet's easy to compete for the big prizes," Fordiani said. "There's nothing to buy and nothing to do except write your name, address and telephone number on a slip of paper and leave it in special barrels at the store. That's all there is to it." Winners will be selected Oct. 22, but they need not be present, the manager continued. The true work of art is but a shadow of the divine perfection. —Michelangelo
