Office Manager

**CHARLES STROOT**  
Service Manager

Mr. Elmer Griffey started Griffey Electric in business in 1925. At that time it was just a small shop without the facilities of a delivery service. Now Griffey's has become the largest T.V., Stereo and Electrical Sales and Service business in the entire South Bay area, offering the people of this area 10,000 sq. ft. of sales and service space in Griffey Electric's new store, plus complete free parking facilities to accommodate all our customers. Also for the convenience of our many

customers, Griffey Electric has a fleet of nine modern service trucks, equipped with two-way radios to give the fastest service possible.

We at Griffey sincerely thank the many friends and customers in the South Bay area who have made the growth of our business a success and cordially invite our old and new friends to our Grand Opening Thursday, November 1, at 11:00 A.M.
