Editor: In its Nov. 14 edition, the Torrance Press story on the hearing to determine the site of the proposed South Bay State College contained the implication that Mobil Oil Company participated in efforts to prevent the college from being located in Torrance. The implication is contained in the lead paragraph which reads "Several major oil companies may have torpedoed this city's campaign for construction of South Bay State College."

fricts for the purpose of attracting better caliber teachers to Torrance and holding on to the good teachers, once we get them here. To the best of my knowledge we have never taken any money out of the instructional program.

If Dr. Hull feels we are truly "short-changing" the students in Torrance, which I doubt, it is his job to call this to the attention of the Board and make specific recommendations for remedial action.

Sincerely, A. W. Charles

Editor: After carefully reviewing your story (Sunday, Nov. 25, "School Tax Cut") I couldn't resist making some comments.

First, let me clarify one important point. This letter is being written by me as an individual citizen and the comments that I am making are mine and mine alone and do not represent any official action or communication on the part of the School Board. I do not wish to belabor this point, but one local paper has apparently drifted into the practice of quoting one School Board member in particular as the "School Board" and this is not only inaccurate reporting, but a slur on the integrity, work, and effort that is being put forth by the other Board members.

Dr. Hull's comment about Torrance having the lowest per pupil cost is, as far as I know, correct. He then stated that we are possibly "short-changing" the students. I feel that this is a strange comment coming from him because of all people in the Torrance area he should know whether or not the policies as set forth by the Board are having this kind of an effect. It is his job to know and if he doesn't know it might indicate he isn't doing his job. However, with one Board member trying to act as Chief Administrator for the District, I can appreciate the fact that this would tend to confuse some issues as far as lines of communication and authority are concerned.

From where I sit the actions of the School Board have been aimed explicitly at reducing administrative and other non-instructional costs, e.g., school buses. Dr. Hull should certainly know this after this period of time. The Board has repeatedly spent money for new construction, new audio-visual and other materials to enrich the curriculum. We purchased electronic equipment for better vocational programs as well as new electric typewriters and adding machines for the commercial program so that those students who terminate their formal education upon the completion of High School will have a skill they can take into the labor market and use to secure their first position. We have also increased the teacher's salaries to keep our level of compensation in Torrance comparable with other dis-

OLDSTER, BEWARE National surveys, according to the Greater Los Angeles Chapter of the National Safety Council, show that persons 75 years old or over are more susceptible to fatal accidents in the home than any other age group. Of 26,500 persons killed in home accidents last year more than one-third of the victims were 75 or older.
