

ESPECIALLY FOR YOU!

There's nothing more refreshing and delightful than really fresh orange juice, made especially for you! No artificial coloring or flavoring — just the fresh-fruit flavor and all the natural vitamins. In spite of the recent citrus freeze, we have a plentiful supply, and although we've had to raise the price a bit, we believe you'll say it's worth it!

FRESHLY MADE ORANGE JUICE

Enjoy sweet, fresh orange juice, made right before your eyes! Full vitamin content. Re-usable plastic container.

Checks on Auto Anti-Smog Devices Urged By Board

Establishment of smog control stations throughout California for the installation and servicing of automotive smog devices has been recommended by the State Motor Vehicle Pollution Control Board.

Deadline Nears For 1963 Plates, Says Creighton

Little more than a week remains before the deadline of Feb. 4 for license plate renewals, and Charles W. Creighton, manager of the Torrance Department of Motor Vehicles, urges all registered owners of who have not as yet paid their fees for 1963 to come in and avoid the rush.

Creighton said that his office is ahead of last year's pace. The law requires that penalties be added to all registrations processed after the Feb. 4 deadline. The Torrance DMV office is located at 1907 Border Ave.

Gas Bills Due to Drop January 31

Gas bills in Torrance will go down for the first time in more than a dozen years, according to the Southern California Gas Co.

The change will go into effect with customer meter readings made on or after Jan. 31. The drop is caused by a savings in buying gas from a Texas firm.

All the reduced costs of gas supply will be passed on in lowered rates to customers.

Although the amount of saving on each individual bill will be quite small, it will reflect a release of \$8.9 million annually in purchasing power in the total area served by Southern California Gas Co. and Southern Counties Gas Co.

Rates to customers will drop about a cent and a third per thousand cubic feet. According to the gas company, the average residential customer uses upwards of 85 thousand cubic feet of gas a year.

L.A. County Raises Fee For Golfers

Green fees at Los Angeles County-operated golf courses will be slightly higher, beginning Feb. 4.

The new fee schedule will boost the weekday charge for nine holes from \$1 to \$1.25, and on week ends and holidays from \$1.25 to \$1.50.

For 18 holes, the weekday fees will go from \$2 to 2.50, and one week ends and holidays from \$2.50 to \$3.

The new fees apply only to full-size courses and not to pitch-and-putt areas. Action was taken after a report was submitted by Norman S. Johnson, parks and recreation chief, to the board of supervisors.

According to the report, present green fees represent a 27-cent loss per player.

The revised schedule is expected to raise an additional \$264,000 from green fees each year. Johnson said the higher charges are necessary to provide self-supporting operation of the golf courses.

The stations would be licensed garages, service stations and accessory shops properly equipped to install devices on used cars and annually to check, and to service those already on California cars.

Licensing of the stations would be carried out by the Department of Motor Vehicles. Motorists driving into one would receive a windshield sticker or seal. Failure to have such a seal would mean loss of the right to register the vehicle.

Pollution Control Board members said such stations are necessary if the mandatory installation program, which will go into effect Jan. 1, 1964, for most used cars, is to be carried out.

The installation would be carried out over a two-year period on a staggered timetable schedule. All new cars sold in California, starting with the 1961 model come factory-equipped with crankcase devices.

The same regulations would apply once the Board approves two or more exhaust devices. These recommendations will go to the state Legislature.

Mike Porzio Sets Time at Little Indy

Racing at Little Indy quarter midget race track, W. 190th St. and Normandie Ave., opened with Mike Porzio setting fast time in the "A" class.

Mike Pawsey won the trophy dash. The main event went to Paul Needles, Mike Porzio, and James Holms. Roger Girdner won the semi-main, with Jimmie Bingaman second and Punky Reed third. Heat winners were Mike Porzio, Punky Reed, Richy Westlake.

Fast time in the "B" class was set by Lonny Patterson while Kenny Cope won the trophy dash. Lonnie Patterson won the main with Lorry Kilroy second and Kenny Cope third. The semi-main went to Mike Pawsey, Linda Wrick and Mike Wyrick. Heat winners were Lonnie Patterson and Linda Wyrick.

J. C. Berg set fast time in the beginners class and Troy Milburn won the trophy main event with David Benivides second and Ray Franklin third. Rusty Townsend took the semi-main with Laird Maresch second and Georgette Craig third. The special went to David Benivites. Heat winners were David Benivites and Rusty Townsend.

Doctor Urges Cancer Check

Many people have the impression that doctors don't want to be bothered examining presumably well people—that doctors concern is with the sick. The reverse is far more likely to be true, according to Dr. Richard J. Lescoe, of Torrance, district education chairman of the American Cancer Society's Centinela Valley branch.

The society for years has urged annual health checkups for the well as the best protection against cancer. "This program was initiated by doctors, and doctors give it their whole-hearted support," Dr. Lescoe said.

The reason health checkups are so important is that the earlier cancer is detected, the easier it can be cured.

Doctors are trained to observe dangerous conditions which may not be apparent to patients themselves. Also, doctors have at hand modern diagnostic tools which may help detect cancer in its earliest pre-symptomatic stages.

Dr. Lescoe pointed out that very few checkups reveal cancer.

"But if it's early, curable cancer, this makes the whole process worthwhile for both doctors and their patients."
