

A Vision of Progress for Humanity

Torrance Doctors Help Plan March 6 Cancer Symposium

The planning committee of a Cancer Symposium was staffed by two Torrance doctors, Richard J. Lescoe and Ronald T. Piccirillo, along with an Inglewood doctor, Donald McBride.

The symposium will be held Wednesday, March 6, at the Inglewood Elks Club Building, 317 S. LaBrea Ave., commencing at 1 p.m.

Doctors Lescoe, Piccirillo, and McBride will act as moderators during discussion periods.

The program is free to resident physicians, interns, medical students, and student nurses.

Invitations have been sent to all southwest area physicians belonging to the Los Angeles County Medical Assn.

Featured speakers, and subjects for the all-day symposium are Dr. Jesse Steinfield, assistant professor of medicine, USC, "Unusual Manifestations of Cancer;" Dr. William Bachrach, associate clinical professor of medicine, USC, "Upper G.I. Lesions;" Dr. Francis Byron, clinical professor of surgery, Loma Linda University, "Bronchogenic Carcinoma;" Dr. Mortimer N. Haskill, Long Beach, "Recent Advances in Radiation Therapy;" Dr. Lewis W. Guise, assistant professor surgery, USC School of Medicine, "Head and Neck Cancer;" Dr. Sol R. Baker, associate professor of radiology, UCLA Medical Center, "Cancer Quackery;" Dr. Nathaniel Kurmick, associate clinical professor, UCLA School of Medicine, "Chemotherapy in Controlling Cancer."

Dinner will be served at 6:30 p.m. for physicians and guests.

HADASSAH TO MEET

South Bay Chapter of Hadassah will meet in the Community Room of the American Savings and Loan Association, 1959 Kingsdale Ave., South Bay Center, at 11 a.m. Tuesday. A Purim skit will be presented by charter members and Hadassah's birthday will be commemorated. Mrs. Fay Baldwin and Mrs. Simon Davidson will serve as hostesses.

GOOD-NIGHT KISS

Never go to sleep until you have settled your difference and made up. The annoyance which could be on the way to becoming a real problem by morning can be melted away with a good-night kiss.

- GREYFRIARS MEMORIAL ORTHODOX PRESBYTERIAN CHURCH—22511 South Figueroa, Torrance. Formerly of Los Angeles. Worship hours, 11 a.m. and 7:30 p.m. every Sunday. Sunday School beginning at 9:30 a.m. Bring your children (nursery). Young people's fellowship at 6 p.m. William J. Barner, pastor. Mr. Richard Goren, Supt. of Sunday School, Mr. Tom Millard, Director of Choir.**
- SEVENTH-DAY ADVENTIST**
- TORRANCE SEVENTH-DAY ADVENTIST—1418 Acadia Ave. Elder Manson Mel-cali, pastor. Phone: Residence, 820-0504; Church office, FA 8-1540. Sabbath school, 9:30 a.m.; church services, 11 a.m.; Bible study, Wednesday, 7:30 p.m.; young people's meetings, Fridays, 7:30 p.m.

CANDY-STRIPERS RELAX once the move is made at L.A. Harbor General Hospital, in Torrance. The teenage girls assist at the hospital and were in the thick of it during the move from the old to the new hospital last Saturday. The patients were moved without incident, some two hours quicker than the plans called for. The Candy-Strippers work and zip had much to do with the smoothness of the moving operation. —PRESS photo

Little League Tryouts Set March 2, 3, 9

Torrance Little League tryouts will be held at Torrance Field, 5417 Halison St., Saturday and Sunday, March 2 and 3, and the following Saturday, March 9.

Starting at 9 a.m., Saturday, March 2, tryouts will begin with 12-year-old boys. At 10:30 a.m. the 11-year-olds will try out. At 2 p.m., the 10-year-olds will get their chance.

On Sunday, March 3, at 1 p.m., nine-year-old boys will show their stuff, followed at 3 p.m. by boys who at eight are future all-stars.

Saturday, March 9, all boys again will try out starting at 9 a.m. for the 12-year-olds. Following at approximately one-hour intervals, each lower age group, from 11 to eight, should be on hand.

Boys who were on last year's major league teams do not have to try out. All other boys must appear, including those who were "option" players at the end of last season.

Any questions will be answered either by Fred Jackson, president, at FRontier 1-4212, or Marlon Heath, player's agent, at FRontier 4-4575.

THAT'S BETTER, Brad Bakove, of 22425 Kathryn Ave., Torrance, seems to be saying after that tight shoe is off his foot following the South Coast Boy Scout District parade last Saturday. Brad is a member of Cub Scout Pack 960C, Den 5. —PRESS photo

Temple To Honor Workers

At the Sabbath Service Friday night March 1, Temple Menorah will honor the workers on behalf of the United Jewish Welfare Open Campaign of 1962. Dr. William Nussbaum, South Bay Section Chairman, will receive a coveted "Wealifie" Award signifying exceptional service.

Additional "Wealifie" Awards will go to Sam Levy of Torrance and Rabbi Henri E. Front, spiritual leader of Temple Menorah of the South Bay.

Rabbi Front will preach on the subject "The Gift and the Giver," a sermon explaining the needs of the United Jewish Welfare Fund campaign for 1963. Services begin at 8:30 p.m. in the Temple Sanctuary, 1101 Camino Real, Redondo Beach. Assisting in the service will be Harry Newman, Cantor, and the Temple Menorah Choir under the leadership of Fay Newman, Organist.

Participants from Temple Menorah in the National Bible Contest which is being sponsored by the State of Israel will also receive certificates of honor. Winners of the Temple Menorah division of the contest are:

POOLSIDE CONVENIENCE is highlighted as Clarence Bledsoe (left), marketing manager, and Jim Ruffolo, sales rep, for General Telephone Co., look over the telephone jacks to permit residents of cooperative apart-

ments in Torrance to carry telephones and plug them in by pool while they enjoy sun and water. There are 36 telephone jacks—one for each apartment.

Mark Abramson, son of Mr. and Mrs. Harvey Abramson, and Sally Morrison, daughter of Mr. and Mrs. David Morrison.

Alternates are Steve Pearlston, son of Mr. and Mrs. Carl Pearlston and Patricia Deikel, daughter of Mr. and Mrs. Harry Deikel.

Honorable mention will go to Caryn Gerson, Sheila Levy, Carol Goldenburg, Ivan Gerson, Karen Brown, Amy Rodney and Terrie Liblick. Special thanks and presentations will be given to Mel Herschler and Irv Bloom, Bible instructors at the Temple Menorah Religious School.

Children with birthdays in the month of March will also be honored.

Dr. Baranski Tells of Wonders Locked in Frequency Spectrum

Goals of progress for the whole of humanity include: Double man's life span and decrease the helplessness of old age.

Cut the nine-month gestation period of expectancy for mothers nearly in half.

Allow the blind to see without eyes, the deaf to hear without ears.

Use the same energy that nourished the origin of life on this planet as an inexpensive and inexhaustible fuel for industrial power.

Cover the United States with an invisible and impenetrable electronic shield of defense against a ballistic missile attack while maintaining an arsenal of radically new offensive weapons just as effective.

Fantastic? Yes, but with knowledge of what is called the "frequency spectrum," within the realm of practical probability, according to Dr. Baranski, a scientist with North American Aviation, Inc.

Dr. Baranski called the frequency-spectrum the "common denominator of all science," and predicts that one day man will shape himself and his world to suit his own taste and needs by manipulation of frequency forces.

"Frequency is the reflection of energy which is basic to all matter and every form of life," he said.

"Once man gains command of the frequency spectrum—and he will—control of this energy will be automatic, and the world will be catapulted into a 20th Century of scientific renaissance," said Dr. Baranski.

The complete frequency range is a list of all known frequency activity.

There are several blank spaces in the list which Dr. Baranski said denote those areas in which the scientific effects of frequency forces are unknown—predictable, he added, but still unknown.

"Science is just beginning to search for these unknown effects," he continued, "to fill in the blank areas in the spectrum as the holes in the periodic table of elements were eliminated with the discovery of atomic structures."

By far the most intriguing unknown, Dr. Baranski believes, is the microwave frequency that will control the human energy producing molecule called adenosine triphosphate, or ATP, which is considered by many scientists, including Dr. Baranski, as the microscopic beginning of life on earth.

ATP controls physical strength and mental alertness by continuously replenishing the body and nervous system with new energy.

he explained, often to such an extent that both men and women have been driven to superhuman physical acts of heroism.

"The discovery of the controlling ATP frequency," Dr. Baranski declared, "may allow man to double his life span and remain mentally alert by gradually accelerating his flow of ATP energy to maintain a level near to what it was in his prime. Or, an expectant mother might deliver her baby in nearby half the normal time by accelerating her body's chemical processes that affect the child."

As a fuel, ATP could provide a perpetual source of inexpensive power, Dr. Baranski said, storing energy from the sun and releasing it upon frequency command at the rate of one trillion times a second.

There have been eight Nobel Prize winners associated with ATP research, Dr. Baranski said. One of them, he added, was for synthesizing ATP which is composed of carbon, nitrogen and oxygen, all found in air, and phosphate, which can be manufactured very inexpensively.

"The main obstacle now to ATP fuel is the frequency that will release the energy into commercially usable form," he continued. "That frequency is buried somewhere in the spectrum."

Other frequency uses foreseen by Dr. Baranski:

- Provide the blind and deaf with electronic receivers that will allow them to see and hear some images and sounds. They could read a magnetic book or listen to a magnetic recording, not with their eyes and ears, but through frequency responses of their visual and auditory systems to stimulation by magnetic fields.
- Bombard the skies high above the United States with a frequency screen that will detonate guided missiles as they come within range. Counterattack with frequency weapons that literally can demoralize the population of an aggressor nation without its destruction, or if need be, vaporize its cities.
- Naturally, these are projections for the future, but they're all based on sound scientific theory," Dr. Baranski stated. "In fact, the list of projections is endless. Frequency controlled energy is that powerful."

'What Kind of Freedom?' Noble Asks Local Realtors

"When a people want freedom from responsibility more than they want freedom of opportunity, they will cease to be free men," Wendell Noble, Glendale Federal Savings and Loan Association's community relations director told members of the Torrance-Lomita Realty Board today during its regular meeting.

Outlining differences which exist between the American and the communist systems and the causes of the cold war, Noble said, "We can better understand the cold war if we realize that it is not freedom that communists reject, but merely our concept of freedom. We are divided by two diametrically opposed concepts of the very same thing—freedom."

As our four great freedoms which must always exist in a free enterprise system, he listed freedom to try, freedom to sell, freedom to buy and freedom to fail. In contrast, the communists would list freedom from insecurity, freedom from exploitation, freedom from competition and freedom from striving.

"Many people choose to support those who promise freedom from insecurity. These are the people who desire to eliminate distress caused by failure, or, even better, eliminate the possibility of failure," Noble pointed out. "But their programs fail to fulfill their aims. Not only do they fail to produce security, but they so dissipate the energies of man that free choice is replaced by control and force."

In addition to his affiliation with Glendale Federal Savings, Noble is editor—commentator of "The Listener's Digest." His news commentary is broadcast at 2:15 each weekday afternoon.

Lutheran Prayer Day To Be Friday

Members of Ascension Lutheran Church, 17910 Prairie Ave. So., will attend the World Day of Prayer Friday, Sponsored by the Lutheran Women's Missionary League of Centinela Valley, Zone 5, the service this year will be held at Our Savior Lutheran Church in Westchester at 12:30 p.m.

Rev. Henry Kringsel of Palos Verdes will be speaker. Also participating in the service are Rev. Lloyd C. Warneke, pastor of Ascension and Mrs. Roland Mueller, of the Ascension Women's League.

Day of Prayer is held annually on the Friday following Ash Wednesday, the first day of Lent. Coffee and dessert will be served preceding the service by the Ladies Guild of Our Savior.

Is YOUR CHURCH listed on the fastest growing, most promising church page in the South Bay area? If not, call DA 5-1515 and ask for Ronnie Saunders, Church Editor.
