Flood Control Project Work Let at Saving of \$222,942

Supervisor Kenneth Hahn has announced award of a contract for the next unit of the Dominguez Channel flood control improvement at a figure running \$22,942 less than the engineering estimate for the project.

The board of supervisors awarded a contract to the Charles J. Rounds Co. of Azusa on the basis of the firm's bid of \$1,400,140.

Hahn said the unit will be built to parallel Crenshaw between Rosecrans Ave. and 120th St., through the cities of Hawthorne and Gardena. Included in the contract will be construction of a rectangular open channel, a boy crossing, a timber detour bridge and street reconstruction at El Segundo Blvd.

Rounds is expected to begin moving equipment to the site shortly, with excavation due to get under way within the next two or three weeks, Hahn said.

Completion of the unit is slated in about 17 months. Dominguez Channel is a key facility in draining the southwest portion of the county, the supervisor explained. It is being constructed in units from its

headwaters near International Airport to its outlet at the ocean in Wilmington. Use classified. DA 5-1515
