

WITH EXPENSES of higher education ever increasing, a refund from a firm helps a great deal. El Camino College Director of Business L. W. Brock (seated) and Southern California Gas Company's Southwest Division Manager, G. M. Babbe, look over statement which shows that the junior college is receiving \$1350 refund from the utility.

### Customers Get Gas Co. Refunds

Local natural gas customers are currently receiving portions of \$10.8 million in refunds as credited by the Southern California Gas Co. Coming as part of one of the largest refunds in business history, the credits are being made on current bills, according to G. M. Babbe, division manager. Customer refunds, being made as a result of the firm's continuing efforts to maintain low gas rates, are based on amount of natural gas used during May of this year. Distribution procedure has been approved by the State Public Utilities Commission. Babbe pointed out that all

the \$10.8 million, as provided by wholesaler El Paso Natural Gas Co., is being passed on to residential and industrial customers. The large sum is part of nearly \$15.5 million paid by El Paso to Southern California and Southern Counties Gas Companies which serve 2.6 million Southland residents.

**LOOKING BACK**  
When looking back at those who have gone before, the meanness of men fades and they seem more noble because we can see the total result of what they contributed to us.
