## Principal's Image

Torrance Elementary School Principals Association kicked off their 1963-64 program schedule recently with a talk at the International House of Pancakes by Albert Charles, director of the Personnel Factors Firm.

Topic of Charles' discussion was the professional image of the elementary school principal.

During the program Charles pointed out principles underlying good human relations and effective presentation of a professional image.

According to Richard Welte, president, the initial program was particularly pertinent since a major emphasis of this newly formed organization will be the area of professional improvement.

In forthcoming programs, a continued effort will be made to constantly improve the professional knowledge of elementary principals through dynamic programs organized around outstanding authorities from fields such as medicine, science, education, journalism and government, Welte stated.

## DRIVE DEFENSIVELY

When you're driving during the holidays — especially on freeways — drive defensively. The Automobile Club of Southern California suggests you try to anticipate what other drivers intend to do. Notice traffic conditions shaping up both ahead and behind you and be ready to act accordingly.

"The code of morality for the highways must be the same responsible code by which law abiding citizens fashion the other aspects of their lives. The commandment 'Thou shalt not kill' is not limited to deliberate murder and there should be no scaling downward in the public mind for the crime of murder or threat of murder on the highways."

HONESTY Honest policy is a good friend, both to our safety and to our usefulness. —Matthew Henry
