VA Policy Changed by New Laws

Two bills recently signed into law by President Johnson will benefit veterans who hold National Service Life Insurance policies. Mort Webster, manager of VA's Southern California regional office, said last week.

More than 5½ million World War II and Korean Conflict veteran policy holders will benefit from an extension of premium waiver provisions. At present the law provides for the waiver of premiums if the insured becomes totally disabled before his 60th birthday.

The new law, applying to all NSLI policies, raises the disability deadline to the insured's 65th birthday, Webster said.

This provision will be automatically included in all policies.

The new law takes effect Jan. 1, 1965.

THE SECOND law authorizes the granting of a new total disability income provision which provides a monthly income of \$10 for each \$1,000 of insurance if the insured becomes totally disabled before reaching his 65th birthday. The present law, Webster explained, has an income provision if the disability occurs before the insured's 60th birthday.

This second law also takes effect on Jan. 1, 1965.

Service-disabled veterans holding "RH" insurance policies will not be eligible for this new total disability income provision.

Those who are eligible must be in good health. They must file an application and pay an additional premium.

Webster pointed out that application forms for the disability riders will be available this fall. GI policyholders affected will be advised.
