Three U. S. Presidents:

cleared the tracks nationally for railroad peace—Let's complete the job in California!

PROPOSITION 17 makes it possible for California to put into effect the national transportation settlements—worked out by Congress and Presidents Eisenhower, Kennedy and Johnson—which eliminate wasteful featherbedding in the railroad industry under terms that insure maximum job protection, yet retain two men in the cab of all trains.

These settlements are now in effect in most states—but not in California because of a conflicting "horse and buggy days" law which Proposition 17 repeals.

To keep California competitive—To help keep freight rates down.
