Editor, Press-Herald:

We are building a great civilization here. It is important that we also build a great score of righteousness and a deep abiding high morality to be a foundation for our labors. It is as foolish to seek fact, materialistic achievement, and atomic knowledge without the socialistic and Godliness to apply it as it is to plant a field of wheat and, upon the time of harvest, toss a lighted match into that field. We must be able to seek out the meanings of the past, and the teachings that have been taught and rise up to this.

There are challenges Kennedy offered us. Because he could see what we are, and what we can do if we can control our own personal greed and realize our ignorance. How shall we do this is the remaining question we must gather together and solve.

There are some in our land and in our world who are evil and will always remain evil, and therefore can do no good for mankind. They make money a god and have desires and wants for themselves only. If they give anything away, it is merely to get a return. We must seek to control these people so they do not get the power, as much of it they now have, for they lead very much to the destructive ways of life in which we will live up to one force against the other and in total ignorance destroy all that we have built up to such a degree that it will never recover.

If we have any sense of right and wrong, now is the time to find it and tie ourselves to the rope of truth, for as a rope is many fibers intertwined, so are we many fibers who together can become the foundation of truth.

We must discern ignorance and cope with it gently.

We must discern want and dig it out by the roots. We must seek peace, not at all costs, but a peace built on serenity of the souls of men.

We must discern God and reconcile our nations, our religions, and our sciences with this great concept, for without God what are we, why are we here, and where are we going?

J. DONNELLY, Torrance

Editor, Press-Herald:

This is an open letter to Mr. and Mrs. Renter.

Our tax load has increased AGAIN. Due to this fact, we must raise our rents AGAIN to cover the increase. We belong to an apartment owners association which is constantly protesting the wild spending of our local government officials, but it seems that they just turn a

deaf ear to us. It would certainly help if more people protested along with us.

In case you would like to join us in protest, we suggest you write to the following persons:

Los Angeles County Board of Supervisors
500 W. Temple St.
Los Angeles, Calif.

Philip E. Watson,
County Assessor
225 N. Hill St.
Los Angeles, Calif.

Our confiscatory taxes are reaching the point where home ownership will soon become impossible for the family with an average income. When it reaches that point, the house you live in, together with my own will, belong to the State, as we will no longer be able to afford them. There is another country in this world where people rent from the state which owns everything. Let's stop these property tax increases before they "bury us."

Effective date of rent increase is Jan. 1, 1965.

MRS. G. H. BURHENNE
Very Truly yours,

Editor, Press-Herald:

Nov. 3 marked the end of a long, hard first chapter in our efforts to restore "Constitutional" government to the United States of America. We lost, but it was a proud loss. We had a candidate for which we did not have to apologize. We worked in a campaign which was truly the mightiest effort ever made by the grass roots to choose their president.

We had almost everything against us:

The majority of big business.

The majority of the television commentators.

The majority of the newspapers (but not yours), and.

A large segment of the Republican Party which would not back our candidate.

Where do we go from here? It's your decision. We have a job to do, so let's start now.

Thanks to the Torrance Herald, and now the Press-Herald. You have done a good job!
