New Discovery Now Makes It Possible To Shrink And Heal Hemorrhoids Without Surgery

Stops Itch—Relieves Pain In Minutes

New York, N. Y. (Special): A world-famous institute has discovered a new substance which has the astonishing ability to shrink hemorrhoids without surgery. The sufferer first notices almost unbelievable relief in minutes from itching, burning and pain. Then this substance speeds up healing of the injured tissues all while it quickly reduces painful swelling.

Tests conducted under a doctor's observations proved this so—even in cases of 10 to 20 years' standing. The secret is the new healing substance (Bio-Dyne®)—now offered in

both ointment or suppository form called Preparation H®. In addition to actually shrinking piles—Preparation H lubricates and makes bowel movements less painful. It helps to prevent infection (a principal cause of hemorrhoids).

Only Preparation H contains this magic new substance which quickly helps heal injured cells back to normal and stimulates regrowth of healthy tissue again. Just ask for Preparation H Ointment or Preparation H Suppositories (easier to use away from home). Available at all drug counters.

Drinking Perils Outlined In Highway Patrol Study

One of the most difficult social problems facing us today is the drinking driver and pedestrian, Robert J. Cheney, manager of the Automobile Club of Southern California's Public Safety Dept., declared today.

He said his statement is substantiated in a recent study by the California Highway Patrol of traffic deaths on a single holiday which showed 22 of 33 drivers killed had been imbibing.

Sixteen of the drinkers, or almost one-half of the 33, had blood alcohol levels of .15 or above, the traditional level at which it is a certainty that a person is under the influence, and four others had blood alcohol levels of .10 or more, Cheney said.

THE STUDY, according to Cheney, also showed that of seven adult pedestrians killed on the same holiday five had blood alcohol levels ranging from .17 to .27, which meant

they were definitely under the influence of alcohol. The other two tested were negative.

What does this mean? Cheney said it means that alcohol is playing a deadly role in the tragic drama of

Savings Firm Votes Increase In Dividends

Southwest Savings and Loan, with offices in Torrance and Inglewood, will increase dividend payments to 4.90 per cent Jan. 1, 1965, according to Fred E. Edwards, president of the association.

The association has been paying 4.85 per cent on savings deposits. The increase was authorized, Edwards said, to maintain the Association's policy of paying the highest possible dividends to its customers.

death and injury on the highway and must be eliminated from this position.

HE POINTED out that other studies have found that alcohol, even in small amounts, may not render the driver or pedestrian legally drunk but will still slow his reaction time, reduce the effectiveness of his vision, lessen control of his muscle and nerve tissues and serve as a depressant and not as a stimulant as many believe.

"Even though a person can pass approved field tests given drinking drivers, and appear normal in every way, his senses will have been dulled by a single drink and he is apt to react abnormally in emergencies," Cheney emphasized.

"To add this all up we must realize that the 'first drink' effects of alcohol spell out danger. Weakened inhibitions and judgment plus impaired emotional drives and

ignorance of conditions can cause a driver to commit a slight error in judgment or to make a wrong decision. When this is allowed to happen on a highway a fatal accident can be the unfortunate result," Cheney concluded.

Time Extension Wins Approval

The Regional Planning Commission has approved an extension on a zone exception petition for a convalescent hospital near Vermont Avenue and 220th Street.

M. F. Wonder, petitioning on behalf of Concordia Properties, was granted an extension to Dec. 17, 1965.

Guantanamo Bay, Cuba is the United States' oldest overseas naval base, acquired through a lease agreement with Cuba in 1903.
