HAPPY ANNIVERSARY!!

If two-month-old Robert J. Wedemeyer, an only child, could talk, he would yell "Happy 19th Anniversary" to his parents, Mr. and Mrs. Robert F. Wedemeyer, 1601 Torrance Blvd., Torrance, who waited many years for his arrival and are glad to have him home from South Bay Hospital, Redondo Beach, after recovering from a serious medical problem. Young Robert, a premature baby, lost weight drastically when first released from the hospital. Now, after being readmitted, his weight is back up. So are his parents' spirits as they celebrate their anniversary this month.

Rochelle Lessin Enrolls At Italian University

Rochelle Ann Lessin, Miss Redondo Beach Chamber of Commerce 1965, known to her many friends as Shelley, is on her way to Europe to attend the Italian University for Foreigners in Perugia, which is between Florence and Rome. She formerly attended Long Beach State and San Fernando State and intends to further her studies in art and drama.

Her very interesting letters to her parents, Mr. and Mrs. Irving Lessin of the Hollywood Riviera section of Torrance, relate some of her impressions. Shelley states that despite language barriers, she communicates with foreigners rather well with pantomimes, drawing pictures, pointing and, if necessary pulling out her trusty foreign-American dictionaries.

The stereotype of the French being haughty and rude, Shelley found them to be very helpful and patient, even though her command of French left much to be desired. Paris is the most expensive city thus far. Men

wear their hair much longer than in this country and women much shorter.

In England men wear their hair very long and the girls wear it the same length as the men. By our standards the young men wear extreme clothes. Older men wear bowler hats, black overcoats and umbrellas. On the escalators everyone stands to the far right so that people can run on your left. Hamburgers are called "wimpyburgers" and malts "whipsies." Advertising is done by way of pictures of beautiful girls wearing very little clothing—much more exposed than in the U.S. The streets are immaculate.

Mrs. Lessin is looking forward to joining Shelley for six weeks in the fall of 1966.

ACCESS

TO GREAT IDEAS

ACCESS — Tremendous Meaning For You! For access to great ideas is creative of the vast intellectual machinery composing your Fertile Mind. And, fertility is entirely dependent upon Growth Ingredients comprising and composing animate materials transcendent in your Being. Thus, it is, that to permit your mind a Feast at the Altar of Mankind's purposeful history, Man's love of Learning, his love of the Arts, His love of the Humanities, and his ever-celebrated love for proliferation of Himself for the realization of Children, that they, in turn, shall gain a greater success to the ARTS and SCIENCES behind the gossamer veil of Man's inceptive fertility — the Design in the Universe — to bring access for understanding great powers of Race, great powers of Color, great powers of Creed, intently patterning Man's Awareness of Himself into Meaningful Dignities.
