

# Government Says She's Bigger Than Her Chair

A recent government sur-conjecture . . . but it may have indicated that, even with start an upheaval in the home her girdle on, the average furnishings industry, which American woman has a broad-for years has been turning er "seat breadth" than the charming Mr.-and-Mrs. average male. To lay it on chair sets — the Mrs. always the line, they found that a smaller version of the Mr. she's broader across the der-One wonders what, exactly, riere . . . the average girl has happened to all of the measuring 14.4-inches across sets. Many questions occur: the beam as compared with What about that .4-inches?" the 14-inches average-width Who is sitting in which man.

What this is going to mean "Sexual Revolution" we keep to the government is open to hearing about nowadays?

### PERSIAN RUGS

"Shah-Mat," a new rug pattern, is offered in two sizes, 4 feet by 6 feet and 8 feet by 9 feet with matching coasters, 24 inches square, on casters. A cushion of the same size may be used alone or on the coaster. The rugs, named after the Persian term for "Checkmate", are patterned in a bold shepherd's check in Caprolan nylon.

### CONVERSATION BAR

A conversation-piece that's mighty practical when you're entertaining is a new "Boomerang"-shaped bar. Available in right-or left-hand models, the unit features sliding-door cupboards for storage. It is offered in a natural teak finish with black metal frame; the bar-top is vinyl, in white or suede leather.

TASTEFUL USE OF OP ART IN DECORATION calls for simple lines in combination with the art form's active patterns. This example shows simple, modern pieces used with lively paintings and decorative fabric. (Basic-Witz)

NAMED THE "SANTA BARBARA" GROUP to describe its look of California Colonial, this dining group features an oak-topped table. Frames are wrought iron with a hand-crafted effect. The chairs feature oak ornamentation and seats of genuine leather in a reddish earth color. (Landes)

ELEGANCE FOR GAMES OR DINING is offered in this glass-topped 44" octagonal table. On a pedestal base, the piece is ornamented with gold leaf panels under exquisite intaglio carvings. (New England Shops)

AIRY AND HANDSOME is this room setting in gracefully curved rattan. A variety of finishes is available for the rattan; upholstery covers are vivid in gay floral patterns. (Hurricane)

Who's wearing the pants, and what size are they? And are the tub and barrel chairs here to stay?

For those who would care to get to the seat of the matter by participating in a little research on this subject, two

new Mr.-and-Mrs. sets are on the market now. One, a contemporary upholstered group, consists of a high-back (no problem, there) lounge chair for Him; a slightly lower back for Her. Probably having read the government report, this manufacturer has in-

cluded a matching ottoman, "designed to simulate an extension of the chairs' arms, but which can be used as an additional seating piece when desired." Notable here is the fact that no limitation was set as to WHO would use that additional seating. Another new Mr.-and-Mrs. group is in rattan; each chair is a rocker set on a swivel. The "Lord Swivel" is 31-inches deep and 26-inches across; "Lady Swivel" is only 27-inches deep (this, of course, is of no importance) and 26-inches across. Apparently this manufacturer was afraid to put himself on the spot . . . at least not on the same spot THEY are in. We recommend that someone follow through on this government report . . . before the bottom drops out of the Mr.-and-Mrs. chair market.

# ELECTROHOME STEREO

ALL PARTS FACTORY GUARANTEED FOR ONE FULL YEAR . . .

WILMINGTON BY ELECTROHOME  
EARLY AMERICAN CABINET
