**For Mothers of Twins**

Monthly meeting of the South Bay Mothers of Twins Club will be held Nov. 15, 8 p.m. at the Southern Counties Gas Co., 608 W. 8th St., San Pedro.

Mrs. Tom Prevo, president, will conduct the business meeting. Immediately following the business meeting, Marily Preskop, home economist, will demonstrate methods for cooking the following menu: fruit soup, roast crown of lamb, mint dressing, zucchini crole, and Alaskan cream pie.

Following the demonstration, there will be a "make-your-own" sundae time and the award-of-door prizes.

Twin club members will bring canned goods and toys to provide both Thanksgiving dinner and Christmas for a needy family with twins.

Anyone desiring further information, may call Mrs. Steve Sailors, Redondo Beach.

**Foreign Pupils to Perform**

Foreign students from El Camino and Harbor Colleges will combine talents for an afternoon of music and entertainment on Sunday, Nov. 21 from 2 to 5 p.m. at the bandshell in Ft. Fermin Park, San Pedro.

For this community get-acquainted affair, over 18 students have signed up to bring to their audience dances and music of their native lands.

A feature of the afternoon will be the performance of a medley of song and poetry by the Men's Choir from Persia.

By audience vote, eight of the best numbers of the afternoon will be selected to be taken on tour of the area hospitals during the holiday season.

The program is being arranged through the Student Activities groups of both colleges, whose spokesman has said that the afternoon program will give members of service clubs and other organizations an opportunity to hear the visitors who are available for bookings for the local clubs.

There is no admission charge and the public is invited to attend.

**Most powerful man in the world**

In America, where by far the greatest amount of electricity is produced and used, the average worker is provided with electric power equal to the energy of 456 able-bodied men. With this at hand he's the most powerful man in the world!

We have more electric power capacity than the next five countries combined — three times the capacity of the Soviet Union. No other system has ever come close to matching the record of the investor-owned electric companies of America.
