What's so super about it:

1. It stays stain-free long after the others turn into stained steel blades.
2. It has none of the tiny, hard chunks in the steel that can mar the smoothness of your shave.
3. It has a thinner, glob-free coating along the edge. Again, a more comfortable (and closer) shave.

GILLETTE has eliminated the flaws that, until now, plagued the makers of stainless blades.

The result is a longer-lasting blade, a smoother and closer shave.
