Junior Club Presents

Gift to Hospital

As a climax to a year of effort toward their major philanthropy, the Harbor General Hospital, members of the Torrance Junior Woman's club last week presented an electrocardiograph machine to be used in the pediatrics ward.

This instrument picks up electrically activities of the heart and traces them in graphic form. This permits the doctor to diagnose heart damage, enlarged heart, and abnormal rhythms affecting the heart.

Philanthropy chairman is Mrs. Robert Vroman, who has directed the club's activities at the hospital.

During the course of the year, the club has donated hand-knitted slippers and nightgowns for the children. At Christmas-time, a party was given at which Santa Claus appeared and distributed toys to each child.

Recently, a musical production of marionettes and hand puppets was given for the children at a party arranged by the Juniors.

At present, the Juniors are staffing the clinic playground one day each week.

THE JOY OF GIVING

Children patients at Harbor Hospital will reap the benefits from the electrocardiograph machine presented this week to the pediatric ward by the Torrance Junior Woman's Club. Getting first-hand information on the machine are, Mrs. Robert Valencia, Junior president, Dr. Robert Perens, resident in pediatrics, explaining, and Mrs. Robert Vroman, Junior philanthropy chairman.
