Here's "NIPPY WEATHER" with more money-saving tips from the Gas Company

Before going to bed, turn your furnace control down. And to reduce heat loss through glass at night, draw the draperies over windows and sliding glass doors.

The biggest money-saving tip of all—always heat with gas. It costs about 1/2 what other modern heating methods do. That's especially important now, when you're using 4 to 7 times as much gas as usual.

Civic Pride and Civic Leadership

NICKOLAS "Nick" DRALE

Candidate

for MAYOR of TORRANCE

I believe it is your right to expect to live and raise your children in a town which is respected and admired. The traditional American concept of pride in one's family, city, state and country is one worth keeping.

A city with a tarnished image may well find colleges, business and industry looking to other areas for future development.

As your elected mayor I would consider development of pride, loyalty and spirit one of my primary duties. I would feel obligated to conduct council meetings in a dignified manner and treat all those in attendance with respect and courtesy. I would also develop an information program for the purpose of telling of the many fine accomplishments which have taken place in our city.

With your help, the working of creating a new atmosphere in Torrance can begin on April 12.
