

Gas Company Reveals Plan To Make Refunds in April

Natural gas users in Southern California soon will receive their fifth rate refund in less than three years, it has been announced.

The refund is in addition to six rate reductions during the same period of time.

Southern California Gas Co. and Southern Counties Gas Co., reported they have submitted plans with the California Public Utilities Commission to refund to their customers \$9,821,000.

With PUC approval, the refund will be applied on April bills. F. Marion Banks, president of Southern California Gas Co., disclosed.

For most of the two utilities' residential customers, the rebate will be in a range of from \$1.57 to \$1.73, Banks said. For larger customers it will be made in proportion to actual bills paid by these consumers.

The refund is the result of the two gas distributing companies taking accelerated depreciation for tax purposes on facilities they installed in the years 1954 to 1961.

The \$9,821,000 refund brings to more than \$82,000,000 in rebates made by the two companies since July, 1963, Banks said.

In addition the two utilities
