

## Chamber of Commerce Adopts 'Action Plan'

A three-point "Plan of Action" has been adopted by the Torrance Chamber of Commerce under the guidance of its Industrial Development Committee, according to Bruce Jones, chamber president.

The plan, revealed by Myron "Bud" Eidsmoe, chairman of the Industrial Development Committee, covers the areas of new industry, existing industry, and community attitude and image.

Key points in the plan for new industry include:

- Gather and maintain current data on location factors ranging from sites to taxes.
- Prepare or utilize existing maps, surveys, fact sheets, and brochures.
- Analyze the area to determine what types of industries could logically locate in Torrance.
- Schedule regular visits to "allies" in Los Angeles, Long Beach, and other California metropolitan areas to

keep them informed about Torrance.

- Continue to encourage development of the Meadow Park Industrial Park for airport-orientated light industry.
- Points of the program for existing industry include:
  - Schedule regular visits to local industrial plants.
  - Honor local industries with appropriate functions.
  - Establish and maintain rapport with governmental officials at all levels.
- The program for community attitudes and image includes:
  - Sharpen the community's awareness of the industry to the city's economic well being.
  - Build a self-appreciation of Torrance to project a positive image throughout the nation.
  - Stimulate continued economic growth throughout the community by involving every chamber in a program to "Boost Torrance."

## Psychologists See 705 Students in Fall Term

Torrance school psychologists assisted 705 children during the first half of the current school year, according to a report made to the Board of Education by Dr. Louis Kaplan, assistant superintendent for special services.

Of this number, Kaplan said, 484 were boys and 221 were girls, a ratio of two boys to each girl. Staff psychologists averaged 88 children per psychologist.

During this period there were 308 full case studies, 161 partial case studies, and 236 case study follow-ups completed by the psychologists, the report stated.

havior problems required parent conferences, counseling, suspension, or other educational program adjustment. Forty-one students were recommended for individual or group mental test examinations as candidates for the academically talented program.

Another group which received psychological evaluation included physically or mentally handicapped students requiring special education placement or remedial assistance.

Included in this group were 53 educable mentally retarded youngsters, 31 remedial candidates, seven trainable mentally retarded students, two deaf pupils, two cerebral palsied youngsters, one partially sighted child, two neurologically handicapped students, and one student who suffered from aphasia, one from epilepsy, and one from autism.

Psychologists were unable to see 170 additional students referred for psychological study, according to the report. These students have been placed on waiting lists for evaluation during the second semester.

MAJORITY OF the students referred for psychological evaluation, according to the report, exhibited learning or behavior problems and were candidates for classes for the educationally handicapped. Of the 220 students referred for such placement, 170 were placed in classes and 50 had their names put on a waiting list.

An additional 343 students referred for learning or behavior

## Isen Hails Chamber for Civic Role

Mayor Albert Isen today urged all Torrance residents to learn more about their Chamber of Commerce as he proclaimed "Chamber of Commerce Week" in Torrance.

The week, beginning Sunday and ending next Saturday, has been designated as "Chamber of Commerce" week through the nation. Isen called on all citizens to learn more of the purpose, accomplishments, and goals of the Chamber of Commerce.

The Torrance Chamber, he continued, has made outstanding contributions to the civic, cultural, economic, and educational progress of Torrance.
