**Advanced First Aid Course Set**

An advanced first-aid course, "Immediate Care of the Sick and Injured" will begin March 17 and 18 at South Bay Hospital, Redondo Beach.

The 13-lecture course is designed primarily for holders of Red Cross First Aid certificates and provides an advanced approach to emergency care, according to Dr. Albert E. Ackroyd, lecture coordinator of the series at South Bay Hospital. Included in the new series will be a refresher program, involving six of the lecture programs, for graduates of earlier courses.

Letters of invitation have been sent to police departments, fire departments, life guards, recreation departments, hospitals and other organizations in the area.

LOCAL DOCTORS will lecture on such subjects as emergency and disaster planning, shock and bleeding, pediatric emergencies and poisoning, unconscious pa-

tient and medical emergencies, orthopedic emergencies and splinting, chest injuries, radiation hazards and protection, the non-breathing patient and respiratory resuscitation, closed chest cardiac resuscitation, head-neck-back injuries, transportation of injured, burns and obstetrical emergencies.

Lectures will be given in the South Bay Hospital cafeteria at 7:30 p.m. consecutive Wednesdays and Thursdays. The Wednesday night subject will be repeated Thursday to accommodate the working schedules of registrants.

THE SERIES is sponsored by the South Bay Hospital Emergency Room Committee in conjunction with the Emergency and Disaster Committee of District 9, Los Angeles County Medical Assn., and the training division of Area G. Medical Service.

Approximately 500 graduates of seven prior lecture series are putting their ad-

vanced first-aid knowledge to work in the area.
