Some dealers call this reconditioning... but not us

We give our cars the works instead of the once-over.  
 How? By putting them through a tough 16-point safety and performance test.  
 Our mechanics check the cylinder compression, plugs, points, transmission, rear axle, shocks, tie rods, steering, battery, tires. They adjust the valve clearance, carburetor and idling speed. Clean the air cleaner. Then test it on the road.  
 If a car passes, we put a blue and white sticker on the windshield. It means the car is fully tested, thoroughly reconditioned and ready to roll.  
 And it means we guarantee 100% the repair or replacement of all major mechanical parts\* for 23 days or 1,000 miles.  
 If a car flunks, we get rid of it.  
 So when you think about it, our safety and performance test actually works two ways.  
 It saves us the headache and expense of fixing up a clunker.  
 And it saves you the headache and expense of buying one.
