## how are things in your neighborhood?

Maybe they're nothing like this. But remember: every slum area once was not a slum. Neighborhood deterioration starts when people start not to care. And people start not to care where deprivation exists, where there seems to be no purpose to life.

What can you do to help in your town or city? You'll be surprised at what can be accomplished through your church or synagogue. And if you care, the same place where you gain spiritual strength can become, with your help, a force for community change.

Think for a moment about the hundreds of ways your world can be made a better place for you and your neighbors to live in. Then worship this week . . . and join with others in putting your faith to work.

Worship this week.
