

COFFEE BREAK . . . Workmen putting finishing touches on luxurious new homes in the Carriage Place community at Figueroa and Sepulveda are getting accustomed to a little expert checking as the Sneak Preview of the development continues to draw a wide re-

sponse, according to John Gause, spokesman for the builders. Here painters share their coffee break with an interested visitor who is all agog at the decor, closet space, and other appointments.

'Sneak Preview' Success Cited at Carriage Place

The successful and continuous response to the Sneak Preview at the new community of Carriage Place has been attributed to two primary factors by John Gause, spokesman for Barclay-Hollander Curci, the developers.

• Homebuyers want to get "first choice" of homes — floor plans, exterior elevations and lot.

• Carriage Place, a few blocks from the intersection of the Harbor and San Diego Freeways, is in a prime location.

"People have had to step around a few workmen and view the homes without all the finishing touches, but getting 'in on the ground floor' has compensated for this," Gause said.

THE SALES selection center allows the prospective buyers of the homes a central area to study the floor plans, the relation of location to tract, and to view the architectural renderings of the exterior elevations.

Samples of carpeting and interior color selections are available so that the customer can visually consider every aspect of the home he would like to buy.

Carriage Place's location at

Figueroa and Sepulveda, just off the Harbor Freeway, places its residents minutes from downtown Los Angeles, UCLA, Hollywood, and a short drive from the beaches, the Los Angeles Harbor Marina, and the Palos Verdes Peninsula.

Carriage Place offers one- and two-story homes with three, four and five bedrooms and from 1,245 to 1,850

square feet of actual living space.

Features include owners' suites with private bath, walk-in closets; separate dining rooms; large living rooms, dens, family rooms; service rooms for sewing, laundry utilities; Balanced Power kitchens with built-in range, oven, dishwasher and garbage disposal; two-car garages with workshop space.

Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by a doctor's observations. Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place. And most amazing of all — this improvement was maintained in cases where a doctor's observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing state-

ments as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®) — the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H®. Ask for individually sealed convenient Preparation H Suppositories or Preparation H Ointment with special applicator. Preparation H is sold at all drug counters.

New Cancer Film Available to Area Groups

With summer vacations just beginning, a timely New American Cancer Society film advises everyone to have "Sense in the Sun."

The 14-minute color film tells the story of a fisherman

who, because of long hours in the sun, develops a sore on his cheek that will not heal.

Early diagnosis and prompt treatment, keys in cancer control, soon have the fisherman back at his job — this time

properly dressed for protection against the sun.

"Sense in the Sun," and any other public education films of the society, is available without charge to requesting groups. In addition,

the American Cancer Society supplies projector, screen, appropriate literature and a volunteer doctor speaker. Requests should be made to the society, 16503 Hawthorne

Blvd., Lawndale, 370-5684.

Blvd., Lawndale, 370-5684.
