Atomic Force Evolvement Is Question

"Is the Universe, including Man, Evolved by Atomic Force?"—this is the question explored in the Bible Lesson to be presented at all Christian Science churches this Sunday.

The Golden Text is from I Samuel: "The pillars of the earth are the Lord's, and he hath set the world upon them."

Opening the lesson-sermon will be Paul's statement in Hebrews: "Through faith we understand that the worlds were framed by the word of God, so that things which are seen were not made of things which do appear."

The theme is explained further in reference for the Christian Science textbook, including these: "The true theory of the universe including man, is not in material history but in spiritual development . . . Through many generations human beliefs will be attaining diviner conceptions, and the immortal, perfect model of God's creation will finally be seen as the only true conception of being" ("Science and Health with Key to the Scriptures" by Mary Baker Eddy).
