

CONGRATULATIONS . . . Janet Rae Witherspoon of Redondo Beach gets good wishes from her instructor, Hal Corbett, after solo flight Saturday during the annual Airport Days at the Torrance Municipal Airport. Miss Witherspoon, who had never been at the controls of an aircraft before Saturday, learned to fly in one day and soloed for a crowd of some 20,000 at the event.

AT AIRPORT DAYS

Redondo Girl Solos in Day

"With God as my co-pilot, it is not for the very brave all went well," explained Janet Rae Witherspoon Saturday after she set a national aviation record.

Miss Witherspoon, an 18-year-old who had never been at the controls of an airplane, lifted off the Torrance Municipal Airport for the first time at 6:09 a.m. Saturday and 13 hours later completed an 18-minute solo flight.

Actual flying time with her instructor was 8 hours and 6 minutes. Her instructor was Hal Corbett, chief pilot for Avion Air Flight School, who has logged 11,000 hours of flight time.

"IN 18 YEARS of flight instruction, I have never known a student who could stand up under the strain, the pressure, and the fanfare which confronted Janet," Corbett said.

"She wanted to learn to fly and she was willing to do it amidst a circus atmosphere during open house at the sixth busiest general aviation airport in the nation."

Miss Witherspoon was honored Saturday evening at a banquet. "Fly the Airport Days banquet," Corbett added.
