North High Graduate Joins VISTA

Geoffrey Patterson, son of Mr. and Mrs. H. H. Patterson, 5013 Macafee Road, was one of 33 trainees who were recently graduated from a VISTA Training Program at the National Training Center in Cleveland, Ohio. As a Volunteer In Service To America, Patterson will spend one year working with the Action for Progress program of New City.

During the six-week training program, Patterson completed classroom studies and gained field experience by working with a project near the National Training Center that is similar to the one to which he has been assigned. Patterson, 24, was graduated from North High School, and received a B.A. degree in sociology from California State College at Long Beach in 1964. Prior to joining VISTA last June, he served as probation officer for the Los Angeles Probation Department.

Northrop Earnings Hit High

Earnings for the Northrop Corp. hit an all-time high during the fiscal year which ended last July 31. Thomas V. Jones, president of the firm, has just announced. Jones said earnings amounted to \$2.49 per share on the 4.2 million shares outstanding July 31. Earnings for the previous year were \$2.10 per share.

Net income was \$10,474,000 and sales were \$357,270,000 during fiscal 1965-66, Jones said. Actual earnings amounted to \$8.6 million in the previous year. Backlog orders stood at \$574 million, almost double the \$288 million backlog of a year earlier, he reported.

Plans for Boat Ramp Approved

Work plans for a \$33,600 service building at the Marina del Rey boat ramp have been approved, Supervisor Burton W. Chace said today. The plans call for construction of a 642-square-foot building which will house comfort stations as well as office and storage space, Chace said. Cost of the structure is estimated at \$21,000, while \$12,600 is budgeted for site development. "This building is needed to service the thousands of persons who will be using the ramp annually," Supervisor Chace said.

Dorothy Digs

Sept. 21
The ants are still a real pest in many areas and this fall is no exception. One of the most effective products for this pest is Chlordane — either as a dust or a spray. Also a 20 percent Dieldrin may be purchased and sprayed wherever the ants are a pest. In all cases follow directions on the label carefully. Another pest working now is the Bark Beetle. They usually work only in run down trees and if you keep your trees growing and healthy you will have no trouble. If you see signs of damage in the trees, you can buy a can of an ethylene dichloride product and squirt the material into the hole in the bark. The fumes will kill the Beetle wherever they contact him. Seaman Ret. Edward W. Hewitt, USN, son of Mr. and Mrs. Edward W. Hewitt of 23551 Kathryn Ave., and Leigh R. McArthur, son of Mr. and Mrs. Clyde McArthur of 4420 Greenmeadows Ave., have been graduated from nine weeks of Navy basic training at the Naval Training Center at San Diego.
