## '67 TORONADO

A new grille, flush-with-the-hood headlight covers, new tail-lamp styling and optional specially designed sporty-looking wheel discs characterize the 1967 exterior appearance of Oldsmobile's front wheel drive Toronado. Engineering improvements give the Toronado a smoother, quieter ride with no sacrifice in the car's outstanding handling characteristics. A spring-operated assister device makes it possible to swing the Toronado's doors open with a minimum of effort. A distinctive horizontal paint stripe is optional, as are bucket seats in the Toronado Deluxe. The Toronado is powered by the 425-cubic-inch, 4-barrel Toronado V-8 engine and features Turbo Hydra-Matic, power steering and power brakes as standard equipment.

**The All New  
Cutlass Supreme**

Because of its high degree of popularity as a hardtop sedan in the past model year, the Cutlass Supreme, representing the top of Oldsmobile's low-price line, is now available in five different body styles for 1967. Included among these is the new Holiday Sedan shown above. The Cutlass Supreme features new front and rear appearances and new side moldings and ornamentation. The Cutlass Supreme convertible and hardtop coupe both are available with a yellow vinyl interior trim with matching top and exterior paint. Standard engine on the Cutlass Supreme is a 330-cubic-inch V-8, with a 4-barrel version optional.
