HIGHEST RATE ON INSURED SAVINGS!

5.39%

is what you earn when
our current annual rate

5.25%

is compounded daily
and maintained a year.

Here are the facts

1. Under new Federal regulations, no savings and loan association in the country can offer you a higher yield than you get at United Savings.

2. Also under Federal regulations, commercial banks are restricted to a maximum rate of 4% on passbook savings. And even on Time Certificate Accounts under \$100,000, banks cannot pay as high earnings as United pays on passbook accounts.

3. At United, you earn our high rate with no minimum balance or special time restrictions.

4. Earnings are compounded daily. In effect, your earnings earn earnings.

5. Earnings are paid to date of withdrawal, when funds are held six months or longer.

6. Accounts are insured to \$10,000—and are also backed by United's strength: over 1/4 billion dollars in assets and exceptionally strong reserves (over 12% of savings).

The fact is: nobody pays you more on insured passbook savings than United Savings.
