

AT POLICE SHOW

Jimmie Rodgers Will Entertain

Television and recording star Jimmie Rodgers will be a featured performer at the 1966 Torrance Police Show, according to Officer Don Hartel, chairman for the sponsoring Torrance Police Officer's Association.

JIMMIE RODGERS At Police Show

In addition to his recording and nightclub appearances, Rodgers stars in a weekly syndicated television program. He is also the artist and repertoire chief for Dot Records, a position which involves signing major talents and organizing and directing recording sessions.

The Annual Police Show is scheduled for Saturday, Nov. 5, at the Long Beach Arena. It will be followed by a dance.

Tickets, which admit the entire family, are priced at \$4 each. Proceeds from the annual show will be used to support the youth and other charity programs of the Torrance Police Officer's Association.

Hahn Urges Abolition Of Mosquito Districts

Studies aimed at the transfer of mosquito abatement district functions to the County Health Department have been called for by Supervisor Kenneth Hahn, who has labeled the special districts "obsolete in a metropolitan area."

Four such districts now exist in the county—Antelope Valley, Ballona Creek, Compton Creek, and Southeast—and each has its own board of trustees. Combined budgets for the four districts total \$382,000, according to Hahn. "Mosquitoes know no boundaries," Hahn said. "Why should citizens of certain areas of the county be taxed for their control while persons in other areas are not?"

Hahn said he feels substantial tax savings can be made and the burden more fairly distributed if the mosquito control functions are transferred to the Health Department. The Health Department now provides a constant countywide immunization program for polio and other infectious diseases and Hahn said mosquito-borne diseases should be treated the same way.

Miller Named In Who's Who

Julius Sumner Miller, instructor of physics at El Camino College, has been included in the 35th edition of "Who's Who in America," which automatically includes a listing in "Who's Who in American History."

Miller, a member of the El Camino faculty since 1952, was named in the publication for "noteworthy accomplishment and notable achievement," and joins some 60,000 out of the more than

200 million Americans who have their names included in "Who's Who." Miller's work on "Demonstrations in Physics" has been recognized throughout the world.
