

New Styles Add To Dining Area

Compatibility with other types of furniture — fine wood cabinets and high-style upholstered pieces, as well as functional storage units — is especially apparent throughout the collection of new dining room models introduced recently.

New styles ranging from Contemporary and Modern through Italian Provincial and Spanish Mediterranean have been developed to blend smoothly with any type of room setting.

Equally important, the eye-catching new designs include the practical advantages of plastic table tops, chip-resistant metal finishes, and supported vinyl chair covers.

FINE RUBBED furniture finishes are closely simulated in new cherry, butternut, antique oak, pecan and teak woodgrain patterns. Also new for 1966 are a polished rosewood pattern, warm-toned Verona marble, suede walnut and suede pecan.

More fashion news is found in upholstery fabrics with the introduction of 18 new fabric-supported vinyl patterns.

A modern adaptation of the Dante chair, with black frame trimmed in antique brass, sets the mood for Spanish Mediterranean. Correlated extension tables, one round and the other rectangular with serpentine ends, have distinctive recessed aprons of

embossed wood edged in brass.

FOR THE homemaker with limited space, a limited budget, or both, one company has introduced a group of new pedestal tables and matching swivel chairs styled with tapering brass-tipped bases, and self-leveling glides. Also new for 1966 is a 42-inch round extension table designed with a "square-look" base. Straight legs of squared tubing, finished in a choice of chrome, white or bronze-tone, are joined by curved aprons to give the table a crisp, architectural look.

Other new styles include modern and provincial chairs

and correlated extension tables, all available in the full range of upholstery patterns and table top patterns.

Siren Systems To Be Sounded

The combined Los Angeles County and City civil defense warning - siren systems will be sounded at 10 a.m. Friday in the customary monthly test of the equipment. Sheriff Peter J. Pitchess has announced.

The test will consist of a steady wail for two minutes, silence for 30 seconds and an undulating tone for one minute, said Pitchess.

San Francisco Meeting Slated

Torrance Unified School District will be represented at day by Mrs. Kathryn N. Widney and Clyde S. Paulson, the educationally handicapped (EH) child in San Francisco today through Friday. A special study institute on elementary school counselors of planning this specialized education.

WEATHER TRIO . . . An Early American decorator piece serves a dual function as a perfect adornment for that small wall and as a complete weather station. Retailing for about \$20, it is available at better stores throughout the area.

Weather Trio Ideal For Wall

If you've ever seen a classic yet contemporary period piece, here's one for decorators! On display at leading stores is a beautifully matched set of fine weather instruments, dramatized in an Early American setting . . . by Springfield.

Each instrument, a thermometer, barometer and humidity indicator, is accented by grained, antiqued pine panels that have been hand-cut and hand-rubbed. They are joined by gleaming brass spindle posts and topped by a traditional brass American eagle.

The piece, constructed with the skill of craftsmen, is more than 20 inches tall — a novel wall adornment for living room, reception area or "his" den. The instruments will not tarnish, and are guaranteed accurate.

OPEN SUNDAY 11 to 6
