

# 'Quakes' Topic of Address

"Earthquakes" will be the topic of the first fall program of the South-Bay Harbor Industry-Education Council. The subject will be discussed by Miss Joan Baldwin, geology instructor at El Camino College, at a luncheon meeting of the council, to be held at noon tomorrow at Bullock's Del Amo Room.

Miss Baldwin has just returned from a seminar on the San Andreas Fault.

A resident of Manhattan Beach, Miss Baldwin is a native of Hermosa Beach and a graduate of Redondo Union High School. She received her bachelor's degree in geology from the University of California at Berkeley in 1952, and her master's degree from the University of Southern California in 1959.

PRIOR TO joining the El Camino faculty in 1958, she served as a staff geologist for Shell Oil Company for five years.

In 1960 and 1965 she was selected to participate in National Science Foundation seminars.

The South Bay-Harbor chapter is a local affiliate of the Industry-Educational Council of Southern California. Dedicated to the promotion and encouragement of communication and cooperation between industry and schools, the organization welcomes new members. Interested organizations or individuals are asked to contact chapter president, Charles Piccard, assistant vice president, California Federal Savings, Palos Verdes Peninsula.

### BAD STORM

One of the most disastrous storms of recent years was Hurricane Flora, which in 1963 killed about 5,000 persons in Haiti and more than 5,000 in Cuba, and left about 200,000 persons homeless, according to World Book Encyclopedia.

JOHN M. KENNEDY  
To Address Lions

## Lions to Hear About Energy of the Future

A simplified explanation of nuclear power — its past, present and future — will be presented by television and radio personality John Milton Kennedy in a talk before the Torrance Lions next Tuesday at noon in the Palms.

Kennedy, whose current activities include representing Southern California Edison Company as a speaker, has titled his presentation, "The Atom Comes to Town." The talk will include a report on the huge new \$87,000,000 San Onofre Nuclear Generating Station soon to be placed in operation by Edison and San Diego Gas & Electric Co. "Because nuclear power was born with a bomb, many people still think of a mushroom cloud when they think of nuclear development," Kennedy points out. "The fact is, some 250 nuclear reactors have been built in the last 20 years or so, and there has never been a single accident resulting in injury to the public."

The sole serious accident in this country, he explains, involved only operating personnel engaged in work on an experimental project which did not have any of the built-in safeguards utilized in a commercial power plant.

As for radioactive emissions, "you would receive far more radioactivity from wearing a radium dial wrist watch for one day than you would get from living in the immediate vicinity of our nuclear plant for an entire year," Kennedy declares.

### CRITIC'S BEAT

## 'The Great Sebastians' Action Fast and Funny

By HELEN HATHAWAY  
Press-Herald Staff Writer  
"Quickly, quickly," paces the action and fashions the "key" to "The Great Sebastians," the Howard Lindsey-Russel Crouse comedy which opened Friday night at the Long Beach Community Playhouse.

This intriguing masterpiece of double-talk, in two codes, yet, comes to life as East and West, mind readers superb, superbly performed

by Laura Killingsworth and Marvin Cloyd, tangle with commissars and army officials following the Communist coup of 1948 in Prague, Czechoslovakia.

Essie, clear-minded about the value of a dollar—she's not against a little smuggling—is just as firm when members of the new regime try to force the Sebastians to release a false statement concerning the death of an old friend. Rudi agrees "this could be serious" and the two set about to "mind read" their way to freedom.

Dick Johnson, as Sergeant Javorsky, and Joseph Carr, as General Zandek, line up as opponents of the Sebastians with exactness and believability. Carr's adept performance makes one wonder if he isn't really a dictator-general, disguised as an actor.

Other cast members include Ron Brody, Doris Ehrler, Ellen Kenworthy, Mike Taylor, Ann Leyeretti, John Williams, Eddy Kara, Ken Upton, Albert Pickavance, Carol Murray, Lionel Begis, and Debby Doll.

Under the direction of James Brittain, audiences will find this comedy of wits, which will play weekends through Oct. 21, synonymous with an entertaining evening.

## UC Class Scheduled Area

University of California Extension is accepting enrollments for the Torrance workshop focusing on exploratory and creative approaches to teaching elementary physical education.

Scheduled in the Yukon School, 17815 Yukon Ave., the 12 weekly sessions will meet Thursday afternoons.

### AGE DISCRIMINATION

Testifying before a House Subcommittee in support of legislation to prohibit age discrimination in employment, Labor Secretary W. Willard Wirtz said that applicants over 55 are barred from half of all private job openings. He said this was "inhuman, innocent and unnecessary."

### QUOTABLE QUOTE

"If Negroes today had the same skills as other Americans, and if they were free from discrimination in employment, our Gross National Product would become \$30 billion higher." — President Lyndon B. Johnson.

### NO HURRICANES

No hurricanes ever have been observed in the South Atlantic Ocean, says World Book Encyclopedia, even though they are common in the South Pacific and Indian Oceans, as well as in the Northern Hemisphere.

The new 230-hp., V-6 engine runs on regular gas. It's standard on all Skylark Custom models.

We also refused to limit your choices. Skylark Custom comes in four models, 15 colors and 32 trim combinations. So talk to the man who talks your language, your Buick dealer.

All Buicks have a full line of General Motors safety features as standard equipment. For example, side marker lights and energy-absorbing steering column.

Wouldn't you really rather have a Buick?

We changed the Skylark from front to rear, we gave it a whole new look, simply because we believe you want a car like this. In other words, we're talking your language.

We thought you'd like to have a little easier time parking. So we shortened the wheelbase of the two-door Skylark down to 112 inches.

The '68 Buicks are at your Buick-Opel dealer's now. He's ready to talk your language.
