

**TO ENTERTAIN** ... The Wilder Brothers will highlight the annual Terrace Police Officers Association (TPOA) benefit show and dance, to be held Nov. 18 at 8:30 p.m. in the Long Beach Arena. The brothers, Warner and Wall, have played with Tommy Dorsey, Stan Kenton, Les Brown, Harry James, and other of the big bands. The six-member group has appeared on numerous television shows,

including the Ed Sullivan Show and the Colgate Comedy Hour, as well as every major hotel and supper club in the country. Tickets for the show are \$4 per family, according to Officer Don Hartel, program chairman. Proceeds from the show will be used by the TPOA for its youth and benevolent programs during the year.

**Distribute Revenues For Forests**

**Capitol News Service**  
**SACRAMENTO** — State Controller Houston I. Flournoy reported Los Angeles County has received \$33,362 as its share of revenues from forest reserve areas for the fiscal year which ended on June 30. A total of 39 counties re-

ceived some \$6,468,995 for the year. The amount represents 25 per cent of the total revenues in California received by the federal government for the forest reserves. One-half of the amount apportioned to each county is deposited in the county school

**TRW Artists Plan Display**

More than 50 employees of TRW Systems Group, Redondo Beach, will be displaying their artwork in the Wayup Gallery, 1111 Pier Avenue, Hermosa Beach, from Oct. 20 through Nov. 4. A private showing for TRW personnel will be held the first two days. It will be open to the public beginning Saturday, Oct. 21. The artists represent a wide variety of professional interests from secretaries to scientists, administrators to technical managers. Many of these artists have won prizes for their own work.

# “Name just one thing that doesn't cost more today.”

How about electricity. Maybe you don't realize it, but you're paying less per kilowatt-hour for electricity now than you did five years ago.

The average cost of a kilowatt-hour of electricity to Edison customers for residential use has gone down 17% in the last five years. That's because of the increased use you make of electricity. It's like a quantity discount.

And your price of electricity has gone down despite the fact that our costs for labor, materials and taxes have gone up.

Of course, you're using electricity for so many more things these days that your bill may seem to be a bit higher. But any way you look at it, electricity is a terrific bargain. Not only because it's inexpensive, but because it lets you do and enjoy so many things.

If you're an average consumer, you use our product in about forty different ways in your home. And that's not counting special uses like a home workshop or a ham radio or a slot car racing track.

Where else can you get such a good buy without even having to shop around for it?

Southern California Edison
