## Moves You In!

There are 3 men at The Woods who will find a way. Now.

If you think you have down-payment problems that can't be solved, look at how they've helped other people lately:

One man leased his Southern California home and went east to take a new job. It didn't work out, he came back and needed a home for his family — fast. The men at The Woods arranged a down-payment loan on his leased house and moved him in — fast.

Another family wanted to live at The Woods but didn't have enough cash for the down. But they did have a 2nd trust deed on some land in Hawaii. We accepted that for the down payment and they were living at The Woods within 10 days.

A third family had good equity in a house in San Diego. But it wasn't moving. We got them an 18-month loan for their down payment at The Woods. They moved in right away and have plenty of time to get the right price for their other house.

At The Woods, financing is flexible. And we'll bend it any way you want.

We've taken houses in trade and we can arrange down-payment loans on your equity in just about anything.

We've deferred second-mortgage payments on principal and interest for three full years with 5% down.

We have 6% and 6.5% loans with only 10% down.

We can even move you in for as little as \$995 on a contract purchase.

And if you've got some hard cash, you'll be amazed at the bargain you can drive.

The point is this: If you want your family to move up to the kind of fine homes we have at The Woods and if you have a good income you can move up right now. Because at The Woods there are three top real-estate professionals who will find a way.
