

# Journalism Department Boasts Top Publications

## Sue Rankin Crowned As Queen

The journalism department at El Camino College rates as one of few among the nation's college programs to have two All-American award winning publications.

Warrior Life, campus feature magazine, was awarded All-American honor rating by the Associated Collegiate Press for the Winter '67 and Spring '67 issues of the magazine.

The college newspaper, the Warwhoop, recently was picked for its 26th All-American award out of the past 27 semesters.

"Warrior Life has won first and second place certificates before," Merrill Jones, the magazine's adviser explained, "but this is the first time we have won All-American."

Editor-in-chief for the Winter '67 issue was Tom Buckingham, now a student at San Diego State. For the Spring '67 issue, editor was Robin Roy, ECC journalism major and a resident of Torrance, who is also the editor of the current issue of the magazine.

Staff members of the Win-

Dr. John A. Lucas, principal, officiated at the coronation, with Denise Byrne, 1966 Homecoming Queen, crowning the new monarch. Members of Her Majesty's court are Debbie Celio, Kathy Ellis, Ginny O'Brien, and Christi Waldeck.

Sue is the daughter of Mr. and Mrs. Wayne H. Rankin of Torrance. She is currently senior delegate on the South High Representative Council, and also served as freshman representative. Sue is a member of Girls' League, Girls' Athletic Association, and is secretary of the choir.

The new queen plans to attend college next year in Northern California.

ter '67 issue included Miss Roy, layout editor; Bill Pack, copy editor; Ole Frandsen, photo editor; Bruce Robinson, business manager; and James Donnelly, David Hoffman, Kurt Huber, Cheryl Miller and Greg Smith, writers and photographers.

Comprising the staff of the Spring '67 issue were Buckingham, layout editor; Miss Miller, copy editor; Frandsen, photo editor; Robinson, business manager; and Billie Al-

len, Steve Allen, Marlin Berland, Mark Einstein, Vickie Freda, Dwayne Hayden, Huber, Terry Johnson, Margaret Matheson and Sharon White, writers and photographers.

The magazine was introduced on the El Camino campus in the spring of 1963 as a replacement for the traditional college yearbook, making El Camino one of the first community colleges in the country to publish a campus feature magazine.

senting the Ensenada Gun do Beach Police Department Club, defeated the Redondo Beach squad by a mere eight points, 2,410 to 2,402. The events were a highlight of Ensenada's gala 365th anniversary fiestas.

In the pistol competition, Jose Nanguary posted an 833 total, leading Redondo Beach's Lloyd Robertson, and last year's winner.

Squad members included officers Lloyd Robertson, Russell Peltz, James Porter and William Ricco. Ricco acted as captain of the squad.

# Ensenada Pistol Team Defeats Redondo Group

Sharpshooters from Redondo Beach Police Department Club, defeated the Redondo Beach squad by a mere eight points, 2,410 to 2,402. The events were a highlight of Ensenada's gala 365th anniversary fiestas.

In the pistol competition, Jose Nanguary posted an 833 total, leading Redondo Beach's Lloyd Robertson, and last year's winner.

Squad members included officers Lloyd Robertson, Russell Peltz, James Porter and William Ricco. Ricco acted as captain of the squad.

**WHAT'S DOING?**

In any given day a Telephone Repairman might help a lady whose phone cord was melted by her electric iron; fix a phone that was making "funny little noises" and replace a frayed wire. And you know, many people are surprised to find this service comes at no extra charge!

So if your phone ever goes out of order you might have to use the phone next door to call Repair Service. You'll find the number listed in the front pages of your phone book. We'll see that your phone is fixed as soon as possible.

From all of us here at Pacific Telephone - best wishes to all of you for a pleasant Thanksgiving Day.

**What is a TRANSISTOR?**

You could hold a hundred transistors in one hand, they are so small... one variety looks like a little hat on three wires. If you were to take off this protective "hat," you would see a tiny chip of material mounted on a metal plate, with electronic connections to it from the three wires.

Let's take a closer look at the solid chip. Not even the highest power microscope would reveal any separate parts. A chemist, after testing one of these chips, would say, "This is an almost, but not quite, perfectly pure sample of the element germanium." (Or silicon, since either of these two elements can be used.) A physicist, probing the molecules of this chip with X-rays, would say, "This is a slice of a single flawless crystal." And an electronic engineer, after connecting the chip to a test circuit, would say, "This is an 'on-off' faucet that controls and directs the flow of electricity."
