Buick's new California GS:

New Buick California GS. We wanted to find out, "What kind of car would Californians really like?" One thing we've discovered is you dislike dull things. So we put chrome wheels on the California GS as standard equipment. You crave excitement. We dared not put anything less than a 340 cu. in. V-8 engine and Super Turbine automatic transmission in the California GS. Little surprises turn you on. You wouldn't expect to find a deluxe steering wheel in a car of this price. Surprised You're easily driven to distraction. You want a feel of the road and easy handling. That's why California GS has heavy-duty stabilizer. You work hard for your money. The price of California GS is pretty near what you'd expect to pay for an economy car. A visit to your Buick dealer will remind you of the happy day you first set foot in California.
